Narrative:

FRIDAY, JULY 28, 2017

At approximately 1130 hours on Friday, July 28, 2017 park dispatch broadcasted a BOLO (Be-On-the-Look-Out) for a 2000 Maroon Lexus Sedan with unknown license information. The vehicle is associated with two missing persons; Rachel Nguyen ~~DOB~~ (b) (6), (b) (7)(C) and Joseph Orbeso ~~DOB~~ (b) (6), (b) (7)(C) ?

Shortly after receiving the initial BOLO, park dispatch reported the subject vehicle (Maroon Lexus) had a California state license # (b) (6), (b) (7)(C) ?

At approximately 1543 hours, Ranger (b) (6), (b) (7)(C) and I were on patrol along Park Route 12 when (b) (6), (b) (7)(C) observed a maroon Lexus parked at the Maze Trailhead. I observed a California license of 5JSH573. Park dispatch confirmed this vehicle to be registered to Rachel Nguyen, one of two missing persons.

Ranger (b) (6), (b) (7)(C) and I performed a brief foot search of the trailhead area. Upon closer examination, no camping equipment or supplies were readily visible in the passenger compartment of the Lexus. Foot tracks were visible on both the driver and passenger side front doors of the vehicle.

I requested a JOSAR (Joshua Tree Search and Rescue Team) callout and initiated ICS with myself in command of the MAZE Incident.

Ranger (b) (6), (b) (7)(C) closed the Maze Trailhead parking area with POLICE tape while I prepared assignments for "Hasty" Search teams as they arrive. I placed a request for aerial search resources.

JOSAR members began arriving on scene at approximately 1700 hours. Initial search assignments included several foot trails that begin at the Maze trailhead to include: Maze Loop, North View Trail, North Side Trail, Big Pine Trail, and Boy Scout Trails.

LAW ENFORCEMENT SENSITIVE (FOUO)

Rangers (b) (6), (b) (7)(C) and (b) (6), (b) (7)(C) arrived on scene to assist.

Rangers (b) (6), (b) (7)(C) and (b) (6), (b) (7)(C) made several unsuccessful attempts to enter the Lexus sedan to obtain scent articles for K9 search team efforts. I advised Ranger (b) (6), (b) (7)(C) to brake the rear passenger window. (b) (6), (b) (7)(C) utilized a ceramic window brake device attached to a collapsible baton to enter the vehicle.

Upon accessing the passenger compartment, a shoe was collected for use as a scent article. The passenger compartment was searched for clues without incident. The trunk was opened and the contents were observed to be numerous sporting goods. No camping or hiking equipment was observed and the trunk was secured.

An airship was provided by California Highway Patrol (CHP), with Ranger (b) (6), (b) (7)(C) as the air/ground operations contact.

Ranger (b) (6), (b) (7)(C) initiated cellular phone pings for both missing subjects' phones.

Ranger (b) (6), (b) (7)(C) conducted containing road patrols of the surrounding area to include Baseline Rd, Quail Springs Rd, Park Route 12, and the Desert View Conservation Area.

All search resources were off of their assignments by 2200 hours with no significant findings.

I requested additional aerial support from CHP the following morning, as well as an additional JOSAR callout for morning (Sat July 29) search operations.

Overnight command was transferred to Ranger (b) (6), (b) (7)(C) at 2245. (b) (6), (b) (7)(C) also provided scene security and containment at the Maze trailhead overnight.

SATURDAY, JULY 29, 2017

I arrived at the Maze trailhead at approximately 0545 hours and assumed command of the Maze Incident from Ranger (b) (6), (b) (7)(C). JOSAR K9 team members were already working on search assignments as of 0430 hours. Additional JOSAR team members arrived at the Maze Trailhead to fulfill overhead/support assignments in addition to search team assignments.

CHP fixed wing aerial resources provided assistance as of 0700.

At approximately 0800 I requested Supervisory Ranger (b) (6), (b) (7)(C) take command of incident and request San Bernardino County Sheriff (SBSO) assistance.

By 1000 hours, Ranger (b) (6), (b) (7)(C) was committed to the Maze Incident and assumed Incident Command. SBSO was dispatching command and search team resources.

At this time, the Maze Incident Command Post (ICP) was moved from the Maze Trailhead to the Joshua Tree Visitor Center (JTVC) parking lot.

At 1100 hours I began planning search area assignments for incoming SBSO search team resources. These assignments included trails that intersect with the Maze Trailhead that were still unchecked.

Sgt. (b) (6), (b) (7)(C) (SBSO) and Ranger (b) (6), (b) (7)(C) established unified command.

END OF INITIAL REPORT.

Remarks:

Narrative:

On Saturday, July 29th, 2017 at approximately 0800 hrs. I was contacted by Park Ranger (b) (6), (b) (7)(C) about a search operation that started the day before in the Maze Loop trail system. He stated that they had not found any clues or the individuals Rachel Nguyen or Joseph Orbeso during the late afternoon and evening search operations. He stated that due to the forecasted high temps (low 100's), not knowing what equipment they may have had, and the lack of any clues or footprints, that we needed to go to unified command with San Bernardino County (SBSO) for additional search resources. He requested that I take over Incident Command.

(b) (6), (b) (7) stated that SBSO had been contacted and that Sheriff Deputy would meet me at the Trailhead. I spoke with Chief Ranger (b) (6), (b) (7)(C) to inform her about the search. She confirmed that Sgt. (b) (6), (b) (7)(C) would meet me at the trailhead.

I arrived at the Maze Loop trailhead at approximately 1000 hrs. I meet with Sgt. (b) (6), (b) (7)(C) and we established unified command of the search. We were briefed on the search by (b) (6), (b) (7) and what teams were out in the field at the time. Approximately 15 Joshua Tree SAR team members (JOSAR) were in the field searching the trails that were not searched the day before. (b) (6), (b) (7)(C) stated that he had a callout for county resources. We agreed to move the command post down to the Joshua Tree Visitor Center parking area.

SBSO brought in their planning team, an investigator was assigned, and approximately 30 searchers arrived. They were given assignments and sent into the field. All teams were out of the field by early evening. Teams were debriefed by SBSO planning staff. One possible footprint that was a close match to the ones found at the vehicle was found on the Western Hills Spur trail and the eastern side of the North View Trail. No other clues were found.

NPS LE staff continued to hold containment at the Maze trailhead overnight.

Sunday July 30th, 2017 Searchers (50+) were briefed and given assignments at 0700 and sent into the field. Searchers consisted of JOSAR ground and dog teams, SBSO ground searchers and air support. The main search areas were maze trail system and the draws and drainages areas off these trails that might have been confused as part of the trail. The areas off the trail are very rocky and very slow to search. A water bottle was found and collected. The families could not confirm that it belonged to the missing individuals. There were no other clues found.

Additional assignments were conducted on the south side of the trailhead. There are additional trails around rock formations and open areas. There were no clues found in this area. Due to the high heat and humidity,

searchers were pulled out of the field around 1500 hours. A few searchers were suffering heat related illness. All teams were debriefed and GPS routes were downloaded by SBSO planning.

SBSO continued their investigation on information that had been reported to them. Park staff pulled video footage from the Joshua Tree entrance station. It showed a vehicle matching Nguyen's was seen entering the park at approximately 0644 hrs. on Thursday July 27th. 2017. The video footage did not show who or how many people were in the vehicle at the time of entry.

NPS LE staff continued to hold containment at the Maze Trailhead overnight.

Monday, July 31st, 2017 Searchers (75+) were briefed and given assignments at 0700 and sent into the field. Searchers consisted of JOSAR ground and dog teams, SBSO ground, horse teams and air support. Dog and ground teams from Border Patrol. Ground teams from Desert SAR. The Burro Loop trail system was added to the search area and was searched by foot and dog. A candy wrapper was found and collected. It did not match any food items in Nguyen and Orbeso's room or vehicle. It was determined to be sold at a local store in Joshua Tree. Search teams were sent into steep drainage areas from the top and bottom. A pair of footprints were found going to the north away from the North View trail downhill to the park boundary. They ended at the top of a waterfall. No footprints were found below the waterfall. The quality of the prints was not very good due to the coarse sand in the wash area. The teams searched the side hills and did not come up with any additional clues.

Teams were pulled out early due to high heat and humidity. 5 searchers were suffering heat related illness and one twisted ankle. A returning team to the Maze Trailhead could smell the odor of decay as they neared the trailhead from the north side of the maze loop trail. The winds were blowing out of the East at the time which does not happen very often in this area. A dog team was sent in with additional NPS ground searchers. They continued to the East as the odor got stronger. Due to fatigue, the dog team was replaced by a Border Patrol dog and continued heading east. The wind stopped blowing at approximately 1600 hours and the dog and searchers could no longer smell the odor. The teams continued to search the area but did not turn up any additional clues.

All teams were debriefed and GPS tracks were downloaded by SBSO planning.

SBSO investigation interviewed an individual that reported to have seen who he believed to be Orbeso with another couple. They were at another Air B&B that is across the street from where this individual lives. They were in a Red Nissan sedan. SBSO conducted a search of the property and continued with the investigation.

Tuesday, Aug 1st, 2017. Searchers (50+) were briefed and given assignments at 0700 and sent into the field. The main focus was to continue to search the very rugged drainage canyons that were not completed the day before. A Border Patrol ground team with Dog searched the canyon where the footprints were found the day before. They did not turn up any clues. Dog teams and ground teams were sent to search the areas around the North View and Big Pine Trail intersection. This area was where searchers believed the odor would have been coming from. The wind was not blowing out of the east today and no additional odor or clues were found. Additional search teams continued to search the trail area to the south of the Maze Trailhead. Searchers were pulled again in early afternoon due to high heat and humidity.

All teams were debriefed and GPS tracks were downloaded by SBSO planning. No additional clues were found. The Incident Command post was moved from the Joshua Tree Visitor Center to the SBSO Sheriff Office where we could use the CHP helicopter landing pad for a joint Saturday operation.

Wednesday, Aug 2nd, 2017. SBSO did not field any search teams this operational period. Approximately 10 JOSAR searchers and two dog teams searched areas around the Eastern Maze Loop and Window Loop Trail area. Limited areas that had not been searched yet south of the trailhead were searched. The dog teams went out at approximately 0500 and ground teams at 0700. They searched this rugged area until late afternoon when a thunderstorm went through the area. All teams were pulled from the field were pulled before the storm went through. All teams were debriefed and GPS routes were downloaded by JOSAR planning.

Thursday, Aug 3rd, 2017 SBSO did not field any search teams this operational period. Approximately 8 JOSAR searchers and two dog teams continued searching areas around the Eastern Maze Loop and Window Loop Trail area. These areas were not completed the day before. Dog teams went out at approximately 0500 and search teams at 0700. A two person team searched the Burrow Loop trail area. No clues were found. All teams were debriefed and GPS routes were downloaded by JOSAR planning.

Friday, Aug 4th, 2017. Three JOSAR teams continued to search segments that had not been searched to a high enough POD in previous search periods. No clues were found. All teams were debriefed and GPS routes were downloaded by JOSAR Planning. SBSO investigations analyzed cell phone data and determined that there were two phone hits, one near the ridge that separates Covington Flats and the basin were we have been searching. The other was in the Smith water Canyon area near the top of the ridge. Due to the lack of three cell towers in the area, triangulation was not possible. These were general areas where the phones could have been. Plans were made to have a large search push for Saturday and Sunday in these areas as they have had only limited search coverage in previous search periods.

Saturday, Aug 5th. Searchers (50+) were briefed and given assignment at

0700. Teams consisted of JOSAR ground searchers, SBSO ground searchers, Air support, horse and dog teams, Riverside Co. ground searchers and air support. The main search area was the ridge between the Maze loop area and Covington Flats. This is located to the South of the Maze Loop trailhead. Teams were inserted by helicopter due to the terrain and distance from a road or trail. Additional ground teams were assigned search areas on the eastern slope off the California Hiking trail. JOSAR teams continued to search the MAZE area in areas that did not have a high POD in previous search periods. All teams were debriefed and GPS tracks were downloaded by SBSO Planning. No clues were found.

Sunday, Aug 6th, 2017 Searchers 50+ were briefed and given assignments at 0700. The same agencies provide search personnel and dog teams. Areas that were not searched in yesterday's operation were searched this period. This is the ridge line and open area south of the Maze Loop trailhead and Park Route 12. SBSO did not provide air support, but Riverside Co. did. No additional clues were found. All teams were debriefed and GPS tracks were downloaded by SBSO Planning.

Due to the lack of additional clues, the search was put into limited search status. Search area plans will be developed and will be assigned when teams are available to search.

NPS search personal from Sequoia Kings NP and Yosemite NP were brought in to look at the search and areas that have been searched to this point. They came up with the assessment of the highest POD was in the Northview/ Big Pine / Maze Loop intersection. A NPS investigator was brought in also to continue with the investigation. Search assignments of between 10 to 20 acers were developed to be grid searched in this high POD area.

Aug 8&9, 2017. Three teams of park staff searched areas of rough terrain in the areas of high POD. The teams were debriefed and their GPS tracks were recorded by JOSAR planning. No clues were found.

JOSAR and family searchers continue to search the area on weekends. They are given assignments and debriefed by JOSAR Planning.

On September 18th, I received a pair of sunglasses that resemble the ones in a photo of Joseph that we received from the family. They were found by a park visitor the previous week in a wash north of the Big Pine/Northview trail intersection. This location was passed on to JOSAR Planning and search teams searched the area on September 23 and 24th. No additional clues were found in this area. The glasses were shown to Joseph's (b) (6), (b) (7)(C) He stated that the ones in the photo are expensive glasses. Joseph had "knock offs" that looked the same that he would use also. These appeared to be like those.

At this time, we have no additional information on the ware bouts of Rachel

and Joseph. The area being searched away from the trail is very rugged and rocky. There are numerous holes that they could have fallen into and would not be seen unless a searcher was standing on top of the hole. Park staff, JOSAR, and SBSO will continue to search the area when staff are available and on search training sessions.

Summary-

On Friday, Aug 28, 2017 Joseph M Orbeso and Rachel Nguyen were reported overdue when they failed to check out of an Air-B-N-B that they had rented locally. Their vehicle was located at the Maze Trailhead in Joshua Tree National Park a few hours later. A review of entrance station footage revealed that their vehicle had entered the Park's Entrance at approximately 6:45am the previous day.

A major search and rescue operation was launched by Joshua Tree National Park and the San Bernadino Sherriff's Department. The operation included large numbers of ground searchers, dog teams, aerial search by helicopter, a drone, etc.

Despite these efforts the two persons were not located and the search was scaled back to a "limited continuous search mode" after 10 days. Temperatures were in the triple digits during the day time throughout the search operation.

Assignment-

(b) (6), (b) (7)(C) (Shift Supervisor, Yosemite Valley) and I (Law Enforcement Specialist, Sequoia and Kings Canyon National Parks) were contacted by the Regional Office at the request of Chief Ranger (b) (6), (b) (7)(C) to travel to Joshua Tree and attempt to bring a fresh set of eyes to the search, and to determine what future direction the search should take. We arrived on Sunday, Aug 6 and completed our review on Tuesday, Aug 8.

Scene-

The Maze Trailhead in Joshua Tree National Park features a series of loops that wind in and around a maze of rock outcrops, small peaks, and desert washes at an average elevation of 4,000 feet. Temperatures on the day the two went missing and the days after were reported to be high humidity and above 110 degrees. The peaks are characterized by steep ravines, small cliffs, and rubble piles that form numerous caves and crevices.

Significant Clues/Resources-

On Friday, July 28 a searcher ((b) (6), (b) (7)(C)) was able to identify a track from both individuals at their vehicle and also located another matching track about 2/10ths of a mile away on the North Canyon Trail in a wash. These tracks were photographed, measured, and their locations documented.

Searchers ((b) (6), (b) (7)(C)) smelled an odor of decomposition near the location of the track in the North Canyon wash on Sunday, July 30. The wind was blowing out of the East at that time.

An extensive mapping effort was undertaken to incorporate GPS data from the search teams to a map by the San Bernadino Emergency Services Unit using a program called "SarTopo". We were not able to access this program but its use would be critical in entering and recording any ongoing search efforts.

Detective Sergeant (b) (6), (b) (7)(C) (Cell (b) (6), (b) (7)(C)) and Detective (b) (6), (b) (7)(C) (Cell (b) (6), (b) (7)(C)) were the primary investigators. Their investigation revealed the following, in essence:

On Wednesday, May 26 Rachel drove her car with Joseph from the Westminster area to an Air-B-N-B in Joshua Tree. (b) (6), (b) (7)(C)

(b) (6), (b) (7)(C) Rachel has dropped out of College and works at a dispensary. Joseph works as a security guard at a golf course. Prior to this trip Rachel had (b) (6), (b) (7)(C)

There are few calls between the two and very little indication of their relationship on social media channels. Rachel does call her ex-boyfriend frequently.

At the Air-B-N-B Rachel and Joseph left and went to another Air-B-N-B that Joseph had rented earlier from July 11-13. From his earlier stay Joseph knew the combination and presumably knew that the house was listed as "available". A witness saw Joseph and Rachel, and another "mystery couple" that was said to be Asian and driving a red Nissan. This information was provided by someone familiar with the Air-B-N-B but not the owner. We speculate that Rachel and Joseph wanted to party with the mystery couple and did not feel comfortable at the Air-B-N-B that they had rented because the owners were onsite; but by crashing the place he was familiar with they could have a party without prying eyes.

Investigation at the second Air-B-N-B demonstrated that there was trash consistent with Asian occupants- food trash with Asian language writing and two empty wine bottles. Detectives did retain a desanti water bottle that was the same as the ones in the Air-B-N-B that Joseph had legitimately rented on July 26-27. The owners of the Air-B-N-B believe that Joseph and Rachel spent the night in their unit and were gone early in the morning on Thursday.

Detectives discovered in Rachel and Joseph's effects (b) (6), (b) (7)(C) The two left their computer and ipad, as well as Rachel's wallet. Rachels T-mobile phone, and Josephs AT&T android platform phone are likely with the two subjects. Josephs phone was determined to be dark for most of the day on Thursday, July 27 but to have used cell data at approximately 1600 and then stopped.

Future Search Operation Recommendations-

We developed the following recommendations based upon our conclusion that the two subjects are still likely located within the primary search area.

1. All the Peaks and hill tops within the Maze and North Canyon Loop should be searched by ground teams. Our recommendation is that teams be assigned a specific drainage to the summit of peaks and then return by an adjacent ridge until a 360 degree sweep of each peak is complete. Teams should be equipped with binoculars and stop frequently to scan overhangs and crevices. These searches must be uploaded to SarTopo map set. Extra time glassing should be dedicated glassing the area from the peaks and ridgelines to gain these perspectives.
Rationale: The trails around the Maze Loop, Window Loop, North Canyon, North View, and indeed all the trails in the immediate vicinity of the abandoned vehicle were well searched but no clues other than from the previously mentioned tracks and odor were found. These trail

systems often follow sandy washes where tracking is relatively effective and not very taxing. Based on investigative findings that subjects were celebrating a birthday with hallucinogenic drugs we think it is likely they sought out high places in relative proximity to the car.

2. Additional Air Search with experienced rangers or JOSAR team members on board as spotters. These flights should concentrate on Maze and North Canyon Loops and should be "low and slow". **Rationale:** Our review of air mapping and interviews with ground teams indicates that the air searches were conducted at too high an altitude and/or were too fast. We believe the subjects are likely under an overhang and therefore flights that are more focused are advised.
3. Patrol Maze Loop, Window Loop, North Canyon Loop, and North View Trail by night to attempt to detect carrion feeding activity. **Rationale:** Search teams have commented that there is a lot of coyote activity in this area. Observation of this activity or carrion feeding birds might help to localize the subjects.

Future Investigations:

1. Develop more detailed profile of two subject's relationship. It remains unclear how they met, what their connection is, why they chose to celebrate Rachel's birthday together, and what their plan was for their day. This information might help focus the search area.
2. Develop more detailed profile of each subject. Very little is known about Rachel and Joseph that would advance our search strategy and tactics. Friends need to be identified and interviewed along the lines of a traditional search profile development. Orbesco's computer browsing history, their facebook accounts, etc. It seems that the two subjects have been to Joshua Tree before from photograph of Rachel in 2016 and also Joseph renting another Air-B-N-B on or about July 11-13 this year. Details of prior visits could help direct search efforts.
3. Identify and interview "mystery couple". These two are the last known contacts that the subjects had and likely have information that could advance the investigation. This couple reportedly drove a red Nissan. The mystery couple "crashed" another Air-B-N-B that Joseph had rented in the area on July 11-13 on the night of July 26. For this reason they may be reluctant to come forward with information. A "crowd source" social media campaign might be an effective strategy to get them to come forward- perhaps a social media plea with a tip line might work.

Conclusion-

Based upon our knowledge and experience conducting and participating in search operations, the results of the investigation conducted by the Sheriff's Department, and the extreme environmental and climatic hazards in the area, interviews with command staff and search teams, we have formed the opinion that the two missing persons became disoriented and expired due to heat exhaustion within the first 24 hours of leaving their car. (b) (6), (b) (7)(C)

We believe that the missing individuals are within the North Canyon and Maze Loops at or near a high point underneath a rock or overhang as they sought respite from the sun.

General Case Information	
Incident Type Homicide	Case Number NP17138397
Incident Location Joshua Tree National Park - Maze Trail	
Case Summary:	On July 27th, 2017 Joseph Orbeso and Rachel Nguyen were reported to be overdue in Joshua Tree National Park. Nguyen's vehicle was discovered at the Maze Trail Head. An extensive search of the area revealed little clues. On October 15 th 2017 Search and Rescue personel found Orbeso and Nguyen deceased in Joshua Tree National Park near the Maze Trailhead. San Bernadino detectives determined cause of death to be a gunshot wound. It appeared the Orbeso shot Nguyen in the head and then shot himself in the head.

Investigation/Incident Assignment

On October 15, 2017, I was contacted by Chief Ranger (b) (6), (b) (7)(C) by phone. She stated that members of the parks search and rescue team found what were believed to be the bodies of the missing hikers Rachel Nguyen and Joseph Orbeso from the Maze SAR. The bodies were located in a side canyon off the a main wash that extends from the top of the Maze loop and drains out to Baseline road near the town of Joshua Tree CA.

I responded to baseline and Cascade Road. I met with San Bernardino Sherriff investigator (b) (6), (b) (7)(C) and Sargent (b) (6), (b) (7)(C) I filled them in on the find of the bodies and that I would hike in to the site and meet with park SAR peroneal on scene. (b) (6), (b) (7)(C) stated that they would meet with the coroner and that they would fly in to the scene on a county helicopter.

I and 6 additional SAR team members hiked approximately 1.25 miles south of Baseline road and met up with Joshua Tree Sar team member (b) (6), (b) (7)(C). He stated that his team along with Joseph's father had been searching the wash and side canyons that had not been searched completely during the main search. They reached the point where SBSO search teams stopped their search and marked the point with flagging tape. A short distance past this point, the team found a few 44 magnum shell casings and wrappings from bandages on the hillside of the wash.

They continued south in the wash and they came upon a type of foam case in the middle of the wash. They hiked up a side canyon and found more personal items and a shoe. As they continued up the small wash, they found another shoe. As they continued approximately 100 yards up from where the side canyon split from the main wash, they found two bodies that appeared to be a male and a female. They were lying against the hillside under a tree.

Wilton took me up the side canyon where I observed the items that (b) (6), (b) (7)(C) described to me. I observed a female and male lying next to each other in a mummified state and both bodies were intact. While inspecting the scene, I observed a hole in the right forehead of the female that appeared to me to be a gunshot wound. I did not observe this type of wound on the male. Without disturbing the scene, I looked for a weapon, but did not see one. I took photographs of the scene and the bodies to show the coroner.

I met with Deputy (b) (6), (b) (7)(C) of the coroner's office and showed her the photographs and my finding of what I believed to be a gunshot wound. She documented the personal items as we continued up the wash. Deputy (b) (6), (b) (7)(C) examined the bodies and she thought the hole could be a gunshot wound but was not sure due to the condition of the body. She continued documenting the scene. As she moved the male to put him in a body bag, we observed part of a handgun that was under his leg and the remainder covered by sand. She examined the males body further and observed that the roof of his mouth was gone indicating that he had been shot through the mouth.

Sargent (b) (6), (b) (7)(C) contacted the Homicide unit to come to our location and process the scene. Due to the time of day they requested that they come out the next morning. I remained on scene overnight. I met with Detective (b) (6), (b) (7)(C) the following morning and assisted him and Deputy (b) (6), (b) (7)(C) in processing the scene and recovering the bodies. We found identification with both bodies identifying them as Joseph Orbeso and Rachel Nguyen. The bodies were flown out by helicopter with the Sheriff staff.

I hiked out by foot and cleared the area at 1200 hrs.

Report:

On Saturday, July 29th, 2017 at approximately 0800 hrs. I was contacted by Park Ranger (b) (6), (b) (7)(C) about a search operation that started the day before in the Maze Loop trail system. He stated that they had not found any clues or the individuals Rachel Nguyen or Joseph Orbeso during the late afternoon and evening search operations. He stated that due to the forecasted high temps (low 100's), not knowing what equipment they may have had, and the lack of any clues or footprints, that we needed to go to unified command with San Bernardino County (SBSO) for additional search resources. He requested that I take over Incident Command.

(b) (6), (b) (7)(C) stated that SBSO had been contacted and that Sheriff Deputy would meet me at the Trailhead. I spoke with Chief Ranger (b) (6), (b) (7)(C) to inform her about the search. She confirmed that Sgt. (b) (6), (b) (7)(C) would meet me at the trailhead.

I arrived at the Maze Loop trailhead at approximately 1000 hrs. I meet with Sgt. (b) (6), (b) (7)(C) and we established unified command of the search. We were briefed on the search by (b) (6), (b) (7)(C) and what teams were out in the field at the time. Approximately 15 Joshua Tree SAR team members (JOSAR) were in the field searching the trails that were not searched the day before. (b) (6), (b) (7)(C) stated that he had a callout for county resources. We agreed to move the command post down to the Joshua Tree Visitor Center parking area.

SBSO brought in their planning team, an investigator was assigned, and approximately 30 searchers arrived. They were given assignments and sent into the field. All teams were out of the field by early evening. Teams were debriefed by SBSO planning staff. One possible footprint that was a close match to the ones found at the vehicle was found on the Western Hills Spur trail and the eastern side of the North View Trail. No other clues were found.

NPS LE staff continued to hold containment at the Maze trailhead overnight.

Sunday July 30th, 2017 Searchers (50+) were briefed and given assignments at 0700 and sent into the field. Searchers consisted of JOSAR ground and dog teams, SBSO ground searchers and air support. The main search areas were maze trail system and the draws and drainages areas off these trails that might have been confused as part of the trail. The areas off

the trail are very rocky and very slow to search. . A water bottle was found and collected. The families could not confirm that it belonged to the missing individuals. There were no other clues found.

Additional assignments were conducted on the south side of the trailhead. There are additional trails around rock formations and open areas. There were no clues found in this area. Due to the high heat and humidity, searchers were pulled out of the field around 1500 hours. A few searchers were suffering heat related illness. All teams were debriefed and GPS routes were downloaded by SBSO planning.

SBSO continued their investigation on information that had been reported to them. Park staff pulled video footage from the Joshua Tree entrance station. It showed a vehicle matching Nguyen's was seen entering the park at approximately 0644 hrs. on Thursday July 27th. 2017. The video footage did not show who or how many people were in the vehicle at the time of entry.

NPS LE staff continued to hold containment at the Maze Trailhead overnight.

Monday, July 31st, 2017 Searchers (75+) were briefed and given assignments at 0700 and sent into the field. Searchers consisted of JOSAR ground and dog teams, SBSO ground, horse teams and air support. Dog and ground teams from Border Patrol. Ground teams from Desert SAR. The Burro Loop trail system was added to the search area and was searched by foot and dog. A candy wrapper was found and collected. It did not match any food items in Nguyen and Orbeso's room or vehicle. It was determined to be sold at a local store in Joshua Tree. Search teams were sent into steep drainage areas from the top and bottom. A pair of footprints were found going to the north away from the North View trail downhill to the park boundary. They ended at the top of a waterfall. No footprints were found below the waterfall. The quality of the prints was not very good due to the coarse sand in the wash area. The teams searched the side hills and did not come up with any additional clues.

Teams were pulled out early due to high heat and humidity. 5 searchers were suffering heat related illness and one twisted ankle. A returning team to the Maze Trailhead could smell the odor of decay as they neared the trailhead from the north side of the maze loop trail. The winds were blowing out of the East at the time which does not happen very often in this area. A dog team was sent in with additional NPS ground searchers. They continued to the East as the odor got stronger. Due to fatigue, the dog team was replaced by a Border Patrol dog and continued heading east. The wind stopped blowing at approximately 1600 hours and the dog and searchers could no longer smell the odor. The teams continued to search the area but did not turn up any additional clues.

All teams were debriefed and GPS tracks were downloaded by SBSO planning.

SBSO investigation interviewed an individual that reported to have seen who he believed to be Orbeso with another couple. They were at another Air B&B that is across the street from where this individual lives. They were in a Red Nissan sedan. SBSO conducted a search of the property and continued with the investigation.

Tuesday, Aug 1st, 2017. Searchers (50+) were briefed and given assignments at 0700 and

sent into the field. The main focus was to continue to search the very rugged drainage canyons that were not completed the day before. A Border Patrol ground team with Dog searched the canyon where the footprints were found the day before. They did not turn up any clues. Dog teams and ground teams were sent to search the areas around the North View and Big Pine Trail intersection. This area was where searchers believed the odor would have been coming from. The wind was not blowing out of the east today and no additional odor or clues were found. Additional search teams continued to search the trail area to the south of the Maze Trailhead. Searchers were pulled again in early afternoon due to high heat and humidity.

All teams were debriefed and GPS tracks were downloaded by SBSO planning. No additional clues were found. The Incident Command post was moved from the Joshua Tree Visitor Center to the SBSO Sheriff Office where we could use the CHP helicopter landing pad for a joint Saturday operation.

Wednesday, Aug 2nd, 2017. SBSO did not field any search teams this operational period. Approximately 10 JOSAR searchers and two dog teams searched areas around the Eastern Maze Loop and Window Loop Trail area. Limited areas that had not been searched yet south of the trailhead were searched. The dog teams went out at approximately 0500 and ground teams at 0700. They searched this rugged area until late afternoon when a thunderstorm went through the area. All teams were pulled from the field were pulled before the storm went through. All teams were debriefed and GPS routes were downloaded by JOSAR planning.

Thursday, Aug 3rd, 2017 SBSO did not field any search teams this operational period. Approximately 8 JOSAR searchers and two dog teams continued searching areas around the Eastern Maze Loop and Window Loop Trail area. These areas were not completed the day before. Dog teams went out at approximately 0500 and search teams at 0700. A two person team searched the Burrow Loop trail area. No clues were found. All teams were debriefed and GPS routes were downloaded by JOSAR planning.

Friday, Aug 4th, 2017. Three JOSAR teams continued to search segments that had not been searched to a high enough POD in previous search periods. No clues were found. All teams were debriefed and GPS routes were downloaded by JOSAR Planning. SBSO investigations analyzed cell phone data and determined that there were two phone hits, one near the ridge that separates Covington Flats and the basin where we have been searching. The other was in the Smith water Canyon area near the top of the ridge. Due to the lack of three cell towers in the area, triangulation was not possible. These were general areas where the phones could have been. Plans were made to have a large search push for Saturday and Sunday in these areas as they have had only limited search coverage in previous search periods.

Saturday, Aug 5th. Searchers (50+) were briefed and given assignment at 0700. Teams consisted of JOSAR ground searchers, SBSO ground searchers, Air support, horse and dog teams, Riverside Co. ground searchers and air support. The main search area was the ridge between the Maze loop area and Covington Flats. This is located to the South of the Maze Loop trailhead. Teams were inserted by helicopter due to the terrain and distance from a road or trail. Additional ground teams were assigned search areas on the eastern slope off the California Hiking trail. JOSAR teams continued to search the MAZE area in areas that did not have a high POD in previous search periods. All teams were debriefed and GPS tracks were downloaded by SBSO Planning. No clues were found.

Sunday, Aug 6th, 2017 Searchers 50+ were briefed and given assignments at 0700. The same agencies provide search personnel and dog teams. Areas that were not searched in yesterday's operation were searched this period. This is the ridge line and open area south of the Maze Loop trailhead and Park Route 12. SBSO did not provide air support, but Riverside Co. did. No additional clues were found. All teams were debriefed and GPS tracks were downloaded by SBSO Planning.

Due to the lack of additional clues, the search was put into limited search status. Search area plans will be developed and will be assigned when teams are available to search.

NPS search personal from Sequoia Kings NP and Yosemite NP were brought in to look at the search and areas that have been searched to this point. They came up with the assessment of the highest POD was in the Northview/ Big Pine / Maze Loop intersection. A NPS investigator was brought in also to continue with the investigation. Search assignments of between 10 to 20 acers were developed to be grid searched in this high POD area.

Aug 8&9, 2017. Three teams of park staff searched areas of rough terrain in the areas of high POD. The teams were debriefed and their GPS tracks were recorded by JOSAR planning. No clues were found.

JOSAR and family searchers continue to search the area on weekends. They are given assignments and debriefed by JOSAR Planning.

On September 18th, I received a pair of sunglasses that resemble the ones in a photo of Joseph that we received from the family. They were found by a park visitor the previous week in a wash north of the Big Pine/Northview trail intersection. This location was passed on to JOSAR Planning and search teams searched the area on September 23 and 24th. No additional clues were found in this area. The glasses were shown to Joseph's (b) (6), (b) (7)(C). He stated that the ones in the photo are expensive glasses. Joseph had "knock offs" that looked the same that he would use also. These appeared to be like those.

At this time, we have no additional information on the whereabouts of Rachel and Joseph. The area being searched away from the trail is very rugged and rocky. There are numerous holes that they could have fallen into and would not be seen unless a searcher was standing on top of the hole. Park staff, JOSAR, and SBSO will continue to search the area when staff are available and on search training sessions.

Initial Incident Report/Hasty response

Report:

FRIDAY, JULY 28, 2017

At approximately 1130 hours on Friday, July 28, 2017 park dispatch broadcasted a BOLO (Be-On-the-Look-Out) for a 2000 Maroon Lexus Sedan with unknown license information. The vehicle is associated with two missing persons; Rachel Nguyen (DOB 07/28/1997) and Joseph Orbeso (DOB 09/22/1995).

Shortly after receiving the initial BOLO, park dispatch reported the subject vehicle (Maroon Lexus) had a California state license # (b) (6), (b) (7)(C)

At approximately 1543 hours, Ranger (b) (6), (b) (7)(C) and I were on patrol along Park Route 12 when (b) (6), (b) (7)(C) observed a maroon Lexus parked at the Maze Trailhead. I observed a California license of (b) (6), (b) (7)(C) Park dispatch confirmed this vehicle to be registered to Rachel Nguyen, one of two missing persons.

Ranger (b) (6), (b) (7)(C) and I performed a brief foot search of the trailhead area. Upon closer examination, no camping equipment or supplies were readily visible in the passenger compartment of the Lexus. Foot tracks were visible on both the driver and passenger side front doors of the vehicle.

I requested a JOSAR (Joshua Tree Search and Rescue Team) callout and initiated ICS with myself in command of the MAZE Incident.

Ranger (b) (6), (b) (7)(C) closed the Maze Trailhead parking area with POLICE tape while I prepared assignments for "Hasty" Search teams as they arrive. I placed a request for aerial search resources.

JOSAR members began arriving on scene at approximately 1700 hours. Initial search assignments included several foot trails that begin at the Maze trailhead to include: Maze Loop, North View Trail, North Side Trail, Big Pine Trail, and Boy Scout Trails.

Rangers (b) (6), (b) (7)(C) and (b) (6), (b) (7)(C) arrived on scene to assist.

Rangers (b) (6), (b) (7)(C) and (b) (6), (b) (7)(C) made several unsuccessful attempts to enter the Lexus sedan to obtain scent articles for K9 search team efforts. I advised Ranger (b) (6), (b) (7)(C) to brake the rear passenger window. (b) (6), (b) (7)(C) utilized a ceramic window brake device attached to a collapsible baton to enter the vehicle.

Upon accessing the passenger compartment, a shoe was collected for use as a scent article. The passenger compartment was searched for clues without incident. The trunk was opened and the contents were observed to be numerous sporting goods. No camping or hiking equipment was observed and the trunk was secured.

LAW ENFORCEMENT SENSITIVE (FOUO)

An airship was provided by California Highway Patrol (CHP), with Ranger (b) (6), (b) (7)(C) as the air/ground operations contact.

Ranger (b) (6), (b) (7)(C) initiated cellular phone pings for both missing subjects' phones.

Ranger (b) (6), (b) (7)(C) conducted containing road patrols of the surrounding area to include Baseline Rd, Quail Springs Rd, Park Route 12, and the Desert View Conservation Area.

All search resources were off of their assignments by 2200 hours with no significant findings.

I requested additional aerial support from CHP the following morning, as well as an additional JOSAR callout for morning (Sat July 29) search operations.

Overnight command was transferred to Ranger (b) (6), (b) (7)(C) at 2245. (b) (6), (b) (7)(C) also provided scene security and containment at the Maze trailhead overnight.

SATURDAY, JULY 29, 2017

I arrived at the Maze trailhead at approximately 0545 hours and assumed command of the Maze incident from Ranger (b) (6), (b) (7)(C). JOSAR K9 team members were already working on search assignments as of 0430 hours. Additional JOSAR team members arrived at the Maze Trailhead to fulfill overhead/support assignments in addition to search team assignments.

CHP fixed wing aerial resources provided assistance as of 0700.

At approximately 0800 I requested Supervisory Ranger (b) (6), (b) (7)(C) take command of incident and request San Bernardino County Sheriff (SBSO) assistance.

By 1000 hours, Ranger (b) (6), (b) (7)(C) was committed to the Maze Incident and assumed Incident Command. SBSO was dispatching command and search team resources.

At this time, the Maze Incident Command Post (ICP) was moved from the Maze Trailhead to the Joshua Tree Visitor Center (JTVC) parking lot.

At 1100 hours I began planning search area assignments for incoming SBSO search team resources. These assignments included trails that intersect with the Maze Trailhead that were still unchecked.

Sgt. (b) (6), (b) (7)(C) (SBSO) and Ranger (b) (6), (b) (7)(C) established unified command.

END OF INITIAL REPORT.

(b) (6), (b) (7)(C)

I interviewed (b) (6), (b) (7)(C) today.

(b) (6), (b) (7)(C) relayed he and ORBESO were best friends from (b) (6), (b) (7)(C) High School days. Since (b) (6), (b) (7)(C) joined the military, he noticed ORBESO take on a new identity. (b) (6), (b) (7)(C) stated ORBESO claimed to have a "realization" and ORBESO voiced that he was attached to materialistic things. (b) (6), (b) (7)(C) opined ORBESO may have been "enlightened" by Buddhism based on his observations. (b) (6), (b) (7)(C) stated ORBESO expressed his joy of nature and his desire to improve his chakras. (b) (6), (b) (7)(C) described ORBESO as a spiritual person but not religious. (b) (6), (b) (7)(C) added ORBESO sought to improve his quality of life and his optic of living through his pursuit of happiness and joy for nature. (b) (6), (b) (7)(C) stated ORBESO disclosed (b) (6), (b) (7)(C) but was never a witness. (b) (6), (b) (7)(C) described ORBESO to have a "Man vs Wild" look, in which he dressed in shorts, hiking boots, and other hiking attire. According to (b) (6), (b) (7)(C) ORBESO expressed his desire to be a Park Ranger and ORBESO had a passion to be a survivalist.

(b) (6), (b) (7)(C): He and ORBESO went to LA Tokyo Beats, Little Tokyo, Los Angeles, CA, to listen to amateur DJs, eat sushi, and drink sake on a Wednesday (NFI).

(b) (6), (b) (7)(C) He and ORBESO went to (b) (6), (b) (7)(C), Joshua Tree, CA. (b) (6), (b) (7)(C) relayed ORBESO booked this house via AirBnB. On their way to the foregoing location, (b) (6), (b) (7)(C) relayed ORBESO dropped a pin of a location that he expressed to visit in the future. (b) (6), (b) (7)(C) was unable to recollect the exact location but described the location to be near Big Morongo Preserve. During this trip, no hiking plans were made and no future plans of hikes were discussed. (b) (6), (b) (7)(C) relayed he and ORBESO went to the adjacent town (possibly 29 Palms or Yucca Valley) and had pizza and drinks.

(b) (6), (b) (7)(C) first learned of ORBESO's disappearance from (b) (6), (b) (7)(C), on July 30, 2017, (b) (6), (b) (7)(C) relayed he was already in (b) (6), (b) (7)(C) upon this notification.

(b) (6), (b) (7)(C) knew of the missing female through ORBESO. According to (b) (6), (b) (7)(C) ORBESO expressed his like for NGUYEN but were friends. (b) (6), (b) (7)(C) stated ORBESO was not known to be a violent or an angry person. (b) (6), (b) (7)(C) stated ORBESO doesn't isolate himself from people and would always keep people apprised of his plans.

This is a summary of the interview. I'll email you the copy of my report and the DVD will be mailed to you by next week.

Reading the article, what a weird and concerning case. I hope that they turn up.

Please let me know if you want me to clarify anything before then.

(b) (6), (b) (7)(C)

I am assisting with a missing persons case. Joseph Orbeso and Rachel Nguyen went missing in Joshua Tree National Park on July 27th, 2017. Orbeso and (b) (6), (b) (7)(C) were reported to be friends. Orbeso and (b) (6), (b) (7)(C) traveled together Joshua Tree NP one of two weeks prior to Orbeso and Nguyen went missing. The purpose of the interview would be to determine if Orbeso stated where he planned on going hiking with (b) (6), (b) (7)(C) or if he had pointed out any areas where he thought he might go. And also to see if Orbeso planned on meeting up with anyone else or did meet up with anyone else near the time he and Nguyen went missing.

The National Park Service did correspond with (b) (6), (b) (7)(C) through Facebook and asked minimal questions in regards where and what Orbeso and (b) (6), (b) (7)(C) did when they traveled to Joshua Tree NP.

(b) (6), (b) (7)(C) is NOT a suspect; he is a witness in this case.

Here is a link to one of the news articles about the missing couple.

I will be out of town all of next week.

Thanks for your help.

I/REQUEST FOR ASSISTANCE FROM U.S. NATIONAL PARK SERVICE TO INTERVIEW
A (b) (6), (b) (7)(C)

RESULTS OF INTERVIEW OF (b) (6), (b) (7)(C)

1. On 28Sep17, Reporting Agent (RA) interviewed (b) (6), (b) (7)(C), regarding his knowledge of the disappearance of Joseph ORBESO, CIV, and Rachel NGUYEN, CIV. The interview was conducted at (b) (6), (b) (7)(C). The interview was audio/video recorded, downloaded to a DVD, and is appended as Enclosure (A). The following is a synopsis of the interview:
2. (b) (6), (b) (7)(C) stated he and ORBESO were best friends from (b) (6), (b) (7)(C). Since (b) (6), (b) (7)(C) joined the military, he noticed ORBESO take on a new optic on life. (b) (6), (b) (7)(C) stated ORBESO claimed to have a "realization" and ORBESO voiced that he was too attached to materialistic things. (b) (6), (b) (7)(C) opined ORBESO may have also been "enlightened" by Buddhism. (b) (6), (b) (7)(C) stated ORBESO expressed his joy of nature and his desire to improve his chakras. (b) (6), (b) (7)(C) described ORBESO as a spiritual person but not religious. (b) (6), (b) (7)(C) added ORBESO sought to improve his quality of life and his perspective of living through his pursuit of happiness and joy for nature. (b) (6), (b) (7)(C) described ORBESO to have a "Man vs Wild" look, in which he dressed in shorts, hiking boots, and other hiking attire. According to (b) (6), (b) (7)(C) ORBESO expressed his desire to be a Park Ranger and ORBESO had a passion to be a survivalist.
3. (b) (6), (b) (7)(C) disclosed he was on leave in the Los Angeles, CA, area during the following dates:
 - January - February 18, 2017: (b) (6), (b) (7)(C) stated he and ORBESO went to LA Tokyo Beats, Little Tokyo, Los Angeles, CA, to listen to amateur DJs, eat sushi, and drink sake on a Wednesday (NFI).
 - June 30 - July 18, 2017: (b) (6), (b) (7)(C) relayed he and ORBESO went to (b) (6), (b) (7)(C), Joshua Tree, CA. (b) (6), (b) (7)(C) relayed ORBESO booked this house via Airbnb. On their way to the location, (b) (6), (b) (7)(C) relayed ORBESO dropped a pin of a location that he expressed to visit in the future. (b) (6), (b) (7)(C) was unable to recollect the exact location, but described the location to be near Big Morongo Preserve. During this trip, no hiking plans were made and no future plans of hikes were discussed. From (b) (6), (b) (7)(C), (b) (6), (b) (7)(C) relayed he and ORBESO went to the adjacent town (possibly 29 Palms or Yucca Valley) and had pizza and drinks.
4. (b) (6), (b) (7)(C) first learned of ORBESO's disappearance from (b) (6), (b) (7)(C) (b) (6), (b) (7)(C), on July 30, 2017. (b) (6), (b) (7)(C) relayed he was already in Japan upon this notification. (b) (6), (b) (7)(C) knew of NGUYEN through ORBESO.

Present for Interview: ,

DETAILS:

On August 15th, 2017 I called and interviewed (b) (6), (b) (7)(C) friend of Rachel Nguyen.

(b) (6), (b) (7)(C) stated she had known Rachel since the 6th grade; they were in Girls Scouts together.

While they were in Girl Scouts they would occasionally go camping and do other outdoor activities.

(b) (6), (b) (7)(C) stated the last time she spoke with Rachel was sometime in the Fall of 2016. (b) (6), (b) (7)(C) stated Rachel had joined a pyramid scheme and had stopped talking to a lot of her friends.

Reporting Official/Title (b) (6), (b) (7)(C) Special Agent, (b) (6), (b) (7)	Signature # (b) (6), (b) (7)(C)	Date 08/31/2017 13:08

This report is **FOR OFFICIAL USE ONLY**. Public availability is to be determined under Title 5, USC section 552.

1 (b) (6), (b) (7)(C) stated Rachel called it (the pyramid scheme) a business group. Once Rachel joined the business group
2 Rachel would try and solicit her friends to join the business group. (b) (6), (b) (7)(C) stated when Rachel was active with
3 this group she would post links to the business group on her Instagram and Twitter account.

4
5 At some point Rachel deleted all of the links off of her social media and stopped posting on social media all
6 together.

7
8 (b) (6), (b) (7)(C) provided Rachel's Instagram and Twitter account information.

9
10 (b) (6), (b) (7)(C) stated Rachel dropped out of school because of the pyramid scheme. One of (b) (6), (b) (7)(C) and Rachel's mutual
11 friends had told (b) (6), (b) (7)(C) Rachel had dropped out of school so she could focus on the business.

12
13

Missing Person's Investigation
Case Number DR# 09170161

Synopsis:

Rachel picked up Joseph from his house on July 26th, around noon. She was driving the maroon colored Lexus. They drove to Joshua Tree and checked into the Bed and Breakfast around 1430 hours. They had a quick conversation and (b) (6), (b) (7)(C) they were going to hike in Joshua Tree. (b) (6), (b) (7)(C) told them to take water and start early because of the heat. (b) (6), (b) (7)(C) stated they never left the B&B and at 2300 hours on July 26, he went outside and saw the Lexus still in the driveway. (b) (6), (b) (7)(C) got up at 0600 hours on July 27, and noticed the vehicle was gone.

On July 27, the National Park entrance gate captures the plate and car entering the park at 0643 hours.

On July 27, around 1500 hours, (b) (6), (b) (7)(C) notices the vehicle has not returned. He wasn't really concerned because he stated, young kids go other places.

On July 28th, Joseph and Rachel were to check out of the B&B but failed to do so. (b) (6), (b) (7)(C) stated the car was not there and he went into the room and noticed the couple's stuff was still in the room. At 1010 Hours, (b) (6), (b) (7)(C) notified the San Bernardino County Sheriff's Department of the missing couple.

A Search and Rescue was started for the missing couple. The Lexus was located approximately 1.5 miles into the park on the east side near Maize Trail. Two sets of shoe tracks were located and tracked away from the vehicle into the wilderness.

As of 081017, the missing couple has not been found.

(b) (6), (b) (7)(C) is a very experience trail hiker and knows 37 miles of hiking in those conditions is impossible. Detective has not talked to (b) (6), (b) (7)(C)

(b) (6), (b) (7)(C)

I talked to **(b) (6), (b) (7)(C)** he is best friends with Joseph. He stated, Joseph and Rachel were going to Joshua Tree to celebrate Rachel's Birthday. They were going to **(b) (6), (b) (7)(C)** while they were out here. Austin told me Rachel and Joseph were great friends and had no problems. He also mentioned Joseph and **(b) (6), (b) (7)(C)** were in Joshua Tree on July 12-14. Their sole purpose was to come to Joshua Tree **(b) (6), (b) (7)(C)** stair at the stars. **(b) (6), (b) (7)(C)** told me, Joseph told him, **(b) (6), (b) (7)(C)**

(b) (6), (b) (7)(C)

(b) (6), (b) (7)(C) and to think more clearly. I asked him again if he knew Rachel and Joseph were coming to Joshua Tree to **(b) (6), (b) (7)(C)** and he said yes.

(b) (6), (b) (7)(C) Unknown last

I talked to **(b) (6), (b) (7)(C)** via telephone. He is approximately **(b) (6), (b) (7)(C)** years old. He would not give me his last name. He told me Rachel works at **(b) (6), (b) (7)(C)**

(b) (6), (b) (7)(C) **(b) (6), (b) (7)(C)** About one and half weeks prior to Rachel and Joseph coming to Joshua Tree, Rachael asked John **(b) (6), (b) (7)(C)**. She told John **(b) (6), (b) (7)(C)** in the desert while looking at the sky and stars. John had no further information.

Search Warrants:

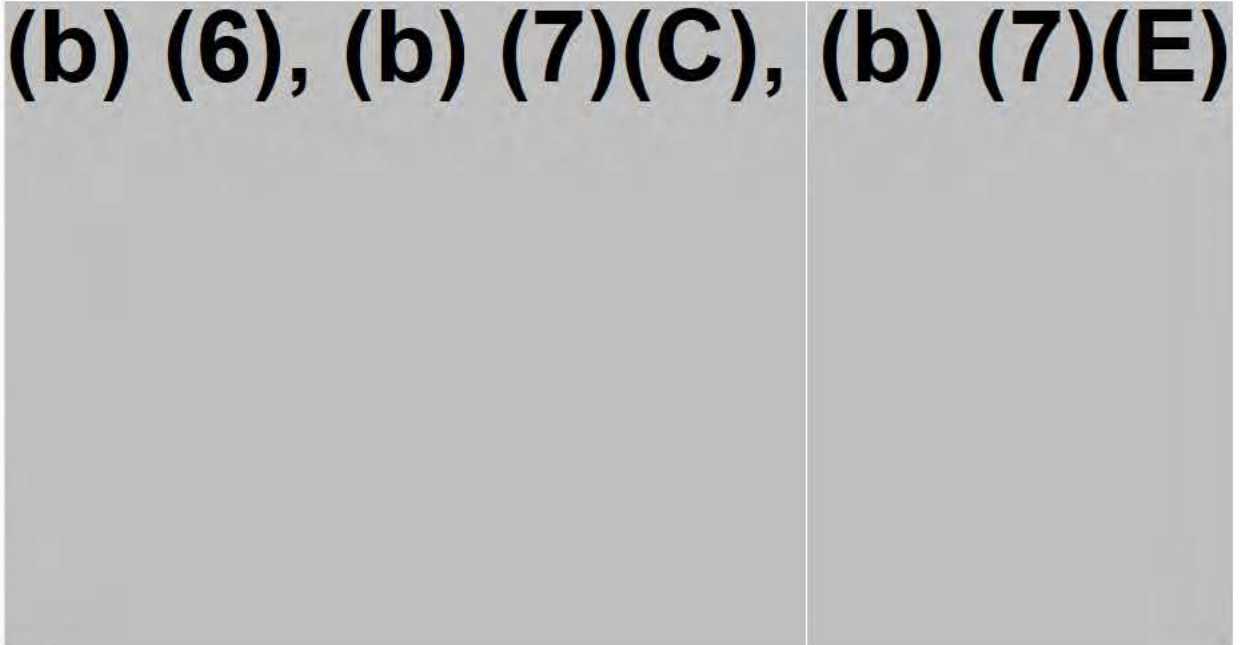

Search warrants were written for Joseph's cell phone, and Rachel's cellphone. Also warrants were issued to Google and ATT for data.

ASSIGNMENT/ARRIVAL:

On Friday, 07/28/17, I was assigned to uniform patrol for the unincorporated area of the Morongo Basin. I wore my class "A" uniform and drove a marked Sheriff's Patrol vehicle. At approximately 1026 hours I was dispatched to the (b) (6), (b) (7)(C) block of (b) (6), (b) (7)(C) in Joshua Tree to investigate a report of a missing person. I arrived on scene at approximately 1100 hours.

REPORTING PARTY: (b) (6), (b) (7)(C)

I contacted (b) (6), (b) (7)(C) in front on his residence, he identified himself by his name and birth date. the following is a summary of his statements.

(b) (6), (b) (7)(C) runs a Bed and Breakfast at his residence in Joshua Tree. Orbeso and Nguyen arrived on Wednesday, 07/26/17, at approximately 1400 hours. (b) (6), (b) (7)(C) described both young adult as pleasant, they asked a few questions regarding hiking and then went to their room for the remainder of the evening.

(b) (6), (b) (7)(C) woke up the next morning at approximately 0600 hours to let his dog outside. He noticed the maroon Lexus Nguyen and Orbeso were driving was not in the driveway, he assumed they went hiking for the day and did not think anymore of it.

On Friday, 07/28/17, (b) (6), (b) (7)(C) noticed the vehicle had still not returned. He went to their room and knocked a few times on the door, there was no answer. (b) (6), (b) (7)(C) unlocked the door to the room and saw all their personal items still in the room. Orbeso and Nguyen were due to check out of the Bed and Breakfast at 1100 hours. (b) (6), (b) (7)(C) wife, (b) (6), (b) (7)(C) text messaged Orbeso to see if they were coming back, she did not receive a response.

DEPUTY OBSERVATION:

(b) (6), (b) (7)(C) unlocked the room Orbeso and Nguyen were staying in. The room consisted of an open area with couches, one set of bunks beds and a larger bed in the south corner of the room. Toward the west side of the room was a kitchen and bathroom area.

I observed a navy blue duffel bag with the name Rachael embroider on the top, on a chair near the bunk beds. Inside the duffel bag I located a black wallet with a California Driver License belonging to Rachel Nguyen, I also located a car insurance card with possible vehicle information.

I showed (b) (6), (b) (7)(C) Nguyen's Driver License, he confirm she checked in with Orbeso on Wednesday.

DEPUTY NARRATIVE:

I requested assistance from Westmister and Lakewood Police Department, in locating additional information on Orbeso and Nguyen. Both departments confirmed neither subject was located at their residence. I was provided with phone numbers for the parents of both Orbeso and Nguyen.

Joseph Obreso is an Asian male adult 21 years of age with black hair, brown eyes, approximately 5'04", and 131 pounds. Rachel Nguyen is an Asian female adult 20 years of age with brown hair, brown eyes, approximately 5'05", and 127 pounds. They were last seen at the incident location and are believed to have gone hiking at the Joshua Tree national Park. Unknown what type of clothing they were last seen wearing.							
PHOTOGRAPHS:							
I took photographs of the room Orbeso and Nguyen stayed in, the items they left, Nguyen's wallet, and a photograph of Orbeso that was located on Facebook. The photographs were downloaded to a CD and placed into an evidence locker.
