Tuesday March 24th /89/

It was still snowing this morning with a North East wind. I started to Hot Springs at 1:45, P.M. When I got in town I put the horse in J. F. Moore's stable & prepared to stay in town all night. I learned the J. F. Sidey was very anxious see me but he did not get to, as I was not anxious to see him. I did not go around town much for I did not want to let every body know I was there.
