

Big Cypress Wildlife Management Area

Dona Drive Check Station

Good Hunting, Be Safe

Hunting within Big Cypress National Preserve and the Wildlife Management Area is a long standing customary activity.

For your safety, and the safety of others:

All hunters must check in and out at one of the Wildlife Management Area check stations located at Dona Drive, Monroe Station, 40-Mile Bend, or in the Bear Island Area.

Hunters should be familiar with all rules and regulations related to the Wildlife Management Area.

Regulations brochures are available at Wildlife Management Area check stations, Big Cypress National Preserve visitor centers, and online at: www.myfwc.com.
