

Make A Kite

It's Fun & Easy!

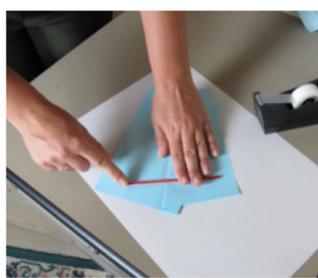

Start with a 8 1/2 by 11 inch piece of paper.

Fold in half.

Fold back the top layer and tape along the fold line.

Place a plastic coffee stirrer or bamboo stick (8 inches long) and tape across the the top of the seam.

Take the crease and fold over so one end is an inch wide and the other side is 2 1/4 inches.

Flip over and punch a hole into the front end. Thread the string through the hole and tie a knot so you can tow the kite with the string.

Add a tail with tape. **THERE!** You are ready to fly -- have fun!
