

Warm Springs Rapid

April 19, 2013

Approximately 1400 cfs

Warm Springs #1

Lateral
that
you
must
break

These guys
mean you
can't break
the lateral
in the
middle you
must break
on the left
side

You must
hit and high
side the
BIG ROCK –
no way to
avoid it

Narrow
wave train
– this rock
will snag
you and
could flip
you

Warm Springs – #2

You MUST hit the big rock

BIG ROCK
you must
hit and
high side

Lateral
you
must
punch

Narrow
wave
train

Watch
out! This
will snag
you

Warm Springs #3 - Entry

Downstream
ferry around
the first hole
gives you
one oar
stoke to
break the
lateral and
square up
for the BIG
ROCK

Rock here
doesn't let
you punch
the first
hole

BIG ROCK
is over
here (not
in photo)

Lateral
you
punch
on left

Warm Springs #4

This is the only option for running the new rapid – at least at this water level.

BIG ROCK

You still have Godzilla and Maytag below – but you can get into the slack water on the right after this section.

Photo courtesy of Barb Rossner and Mho Salim, April 19, 2013, est. 1400cfs

Yampa was running about 1400 cfs
