

## My Invention

Take a look around you. What do you see that could be improved? Maybe there is something you have always wanted but doesn't exist. If you worked for Thomas Edison, what invention would you create? Draw your idea below. It doesn't have to be perfect. Like Edison, you want to get your idea down on paper. Don't forget to name and date your new invention.

My invention is called: \_\_\_\_\_

Invented today, \_\_\_\_\_, 2020
