Junior Rangers know it is important to preserve the battlefields for people today and in the future. You can help us take care of this important place by promising to:

Stay on trails and only cross earthworks by using bridges.

Be a good example and act in a safe and courteous manner.

Honor the memory of the men who fought here by treating the battlefields with respect and **not** playing ball, flying kites, or riding skateboards in the park.

Enjoy the park and leave it in a better condition than you found it.

Enjoy learning about Civil War history and share what you have learned with others.

The plantation at Ellwood had enslaved people who worked for the owners. Enslaved men, women, and children were considered property and received no pay. Look for the signs in and around Ellwood that tell about slavery.

Write three things that enslaved people did at Ellwood:

Write three words that you think describe slavery:

Many enslaved people escaped during the Civil War. The rest became free when the war ended. As a result, former slave owners like the Lacys at Ellwood had to pay workers and sometimes even do the work themselves!

How do you think previously enslaved people benefited from this change?

How many soldiers did the Union army have at this battle? _____

How many soldiers did the Confederate army have at this battle? _____

What days were the Battle of the Wilderness fought?

May ___ & ___, 186__

Why do you think General Grant was whittling? ➡➡➡

GENERAL GRANT WHITTLING DURING THE BATTLE OF THE WILDERNESS.

Look at the large painting.
Find the following things and check them off:

- Saunders Field (*where you are now*)
- Orange Turnpike
- Ellwood
- Widow Tapp Farm
- Orange Plank Road
- Brock Road
- Orange Plank Rd & Brock Rd intersection

After two days of fighting, the Battle of the Wilderness ended as a tie.
But General Grant ordered his army to head south and fight the Confederates some more.
When the Union soldiers heard this, they cheered! (*see the drawing above*) ↗
Why do you think they were glad to know they would be fighting more battles?

When President Abraham Lincoln heard about the Union army heading south and not giving up, he was so happy that he *kissed* the man who told him. Why do you think President Lincoln was so glad to hear this news?

Saunders Field

There is a rubber mulch path that starts at the Exhibit Shelter and leads to a ridge. Follow this path (part of the Gordon Flank Attack Trail) to the edge of the woods and read the signs along the way. Stop at the woods and then return to the shelter.

Below is a drawing that shows what this field looked like during the battle. How would you feel about marching across here?

In the drawing, can you find and circle the Confederates? The road? Zouaves?

You may have noticed Union soldiers wearing a unique type of uniform. These soldiers were called **zouaves**. Why do you think they wore this style of uniform?

Would you choose to wear this kind of uniform? Why or why not?

Tapp Field

Go to Stop #6. Walk the trails and read the signs about what happened there. While you are doing this, think about and answer the questions below.

Why was General Lee worried on the morning of May 6th?

Why do you think General Lee chose to lead his soldiers into this battle himself?

Why did the Confederate soldiers want General Lee to go?
What state were these soldiers from?

What would you have done if you were General Lee?

Below is a drawing of this field made by a soldier after the war. As you can see, the field was quiet and peaceful, much as it is today. Add to this picture and draw what you think it would have looked like on May 6, 1864.

(You may want to include soldiers, cannons, flags or General Lee)

The Dark, Close Wood

At Stop #8 there is a short trail that loops through the woods. Take this trail and read the signs along the way. While you are doing this, think about the things below.

Imagine what it would have been like to fight a battle in the Wilderness ...

It would be hard to see.

There were forest fires

Branches and thorns scratched the soldiers

Soldiers tripped on roots and vines

How did the thick woods affect the battle that was fought here?

Find and read the sign halfway through the trail entitled, "Echoes Homeward."
How did the Battle of the Wilderness affect people throughout America?

Why do you think it is important that we preserve places like this today?

This Junior Ranger booklet was made possible through a partnership between the National Park Service and the Friends of Wilderness Battlefield.
