What makes Gila Cliff Dwellings National Monument so special?

How do archeologist find out about the past?

**Who are the people you learned about today?  
How many people lived here?**

**What evidence or clues did these  
people leave behind?**

**When did people live here? When did they  
leave? How do we know?**

**Where did they get food and water from? Where  
did the building materials come from? Why do  
you think people built homes in this area?**
