## Artist-in-Residence Program Application 2026

Indiana Dunes National Park is seeking artists for the Artist-in-Residence program. The park is located in Northwest Indiana on Lake Michigan's southern shores. Participation in the program provides the artist and the general public an opportunity for experiencing one of the nation's most ecologically diverse parks.

The residency is traditionally two weeks long in park housing, however due to residency space and priority needs, the park may have to shorten the tenure to one week in a neighboring hotel. The park wishes to continue the program and have not found a solution at this time. If selected, please be flexible to the one or two week stay. The program length will be determined by how the park can best support the program.

The program will offer a one or two-week residency in late September through October 2026 to visual artists this year. We are not accepting photographers, musicians, poets, or sculptors at this time. We hope to accept them in the near future. A panel of working artists and national park staff review all applications and will select the artist for residency.
