PREFACE

This document, *Finding Aid for the James Francis Letter books (05-28-1884 – 07/19/192)* contains the letter press copies of James Francis correspondence, both private and professional, in two bound volumes. He was the son of James B. Francis, the first Hydraulic Engineer for the Proprietors of Locks and Canals. The books were donated by Mrs. Duncan Francis, and were cataloged at the Lowell National Historical Park by Cleo A. Ace, volunteer, with the help of Dan Walsh, Museum Specialist.

This finding aid contains four tables organized according to the following criteria: Book and Page number, alphabetized Author Name, alphabetized Recipient Name, and chronologic date order. The original books are held in the Cultural Resources collections in the Curatorial Department of Lowell National Historical Park.

Researchers are requested to contact the park Librarian for assistance in accessing and using this material. If original documents must be consulted, researchers are requested to contact the park Curatorial Department. Users of these materials are advised to determine the copyright status of any document from which they wish to publish.

Publishing authors are requested to cite their use of this collection in the following manner: Letter number, Fox-Brockway Letters, Lowell National Historical Park.

INTRODUCTION

This finding aid describes the James Francis letters preserved in two bound letter-press books from 1884 to 1921. Some of the pages contain two letters; many consist of more than one page. Most of the letters were written by James Francis.

James Francis was the son of James B. Francis and he also worked for the Proprietors of Locks and Canals as an hydraulic engineer.

Family letters to James Francis brother Charles, his sister, Bessie Bennett, his brother-in-law, Henry H. Bennett, and his father James B. Francis, are mixed with business letters and personal correspondences.

There are records of authorized payment to employees, who worked for him at the Wamesit Power Company.

The books are cloth bound, and the letters are on tracing paper. There is an alphabetized index in front of each book, but only book 1 contains a record of all the letters in that book. Book 2 contains a record of about half the letters in the volume.

To facilitate access to the books, there is one list for each of the four headings, book and page number, author name, recipient name, and date.

SCOPE AND CONTENT NOTE

Accession number: LOWE 462

Catalog number: LOWE - 15582

Quantity: .3 linear feet (two bound letter press books)

Storage: 1 legal archival document box containing the originals.

Location: Lowell National Historical Park, 67 Kirk Street, Lowell,
Massachusetts 01852 -1029. Phone 978-970-5000.

Description: Two bound volumes of the private and professional letters of James Francis, hydraulic engineer. Each book has an alphabetical index in the front. Only the Book 1 index has the complete record of his correspondence. Book 2 has about half of the correspondence recorded in the index. The first book was recorded from the index alone. The second book was recorded page by page because there were no dates in the second book's index.

This collection of letters was donated to the Lowell National Historical Park by Mrs. Duncan Francis, a descendant.
