

Title **Species with any Federal Status in Nez Perce National Historical Park (NEPE)**  
 Created October 28, 2010  
 Migrated July 29, 2010

This is a preliminary list of scientific names that have been documented to occur in the park, including names at taxonomic levels other than species (e.g., subspecies, species, genus, family). Data are preliminary and may not yet have been reviewed by subject-matter experts. (See the park's Certified Species List for species lists that have been reviewed and certified by experts). Common names are based on the park's preferred common names list if available, or else from the Integrated Taxonomic Information System (ITIS). TESSCode (Threatened and Endangered Species Status Code) comes from the US Fish and Wildlife Service and is not managed by the National Park Service.
