

ROMO – 239689, Rehabilitate Park Headquarters East Water System and Moraine Park Campground Electrical Distribution

One of several water tanks that will need replacement

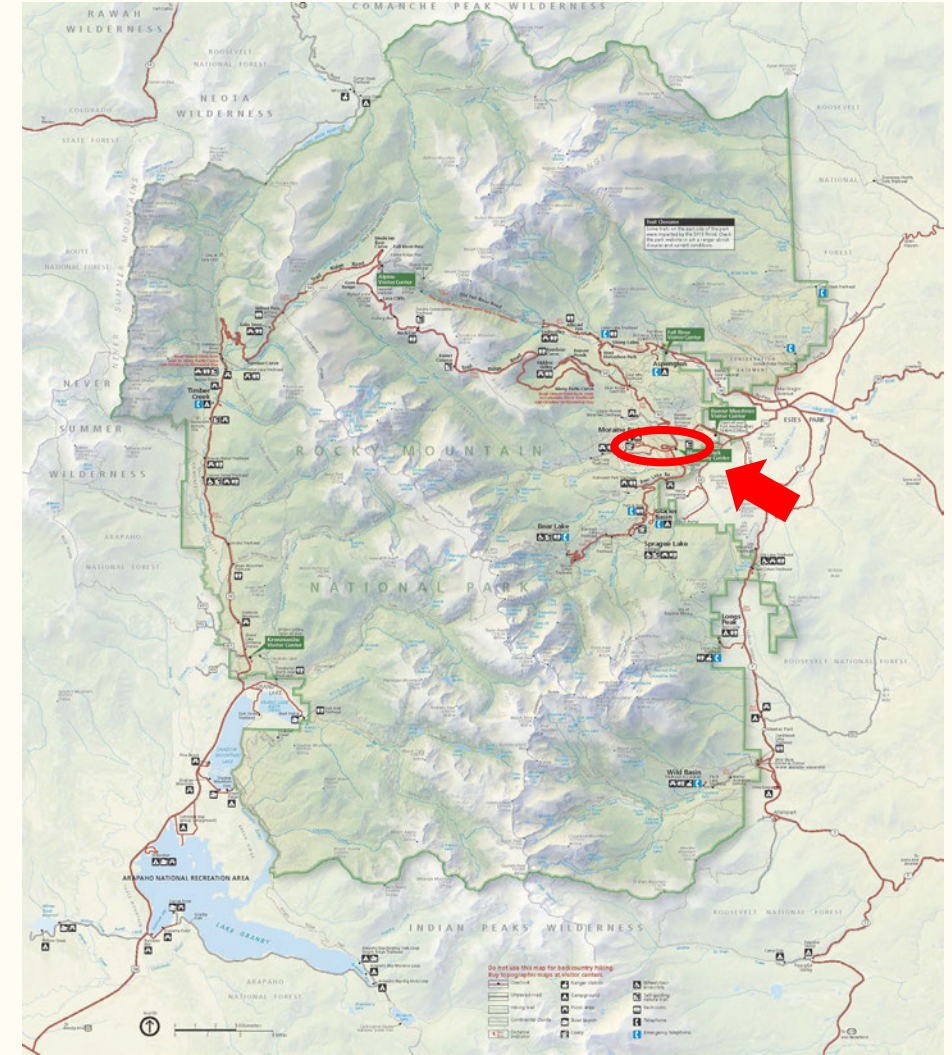

ROMO – 239689, Rehabilitate Park Headquarters East Water System

- Brief Description

This project will rehabilitate portions of the Headquarters East water system, including the Moraine Park Campground (MPCG) water distribution system, as well as rehabilitate the MPCG wastewater system and the MPCG electrical distribution system. The project will address accessibility, drainage, facility rehabilitation, campsite amenities, new host site, parking and traffic calming on the roadways within MPCG.

- Location

Rocky Mountain National Park, Colorado
