RECEIVED

2011 Draft EIS DBOC SUP % Superintendent, Point Reyes National Seashore, 1 Bear Valley Road, Point Reyes Station 94956

POINT REYES NS

Please allow Drakes Bay Oyster Co. to grow & harvest oysters. The operation causes no harm to the estero & it may help the ecosystem. The Lunny's provide a good sustainable food source. It is hard to understand why anyone would want to destroy this marvelous source of delicious foodstuff.

John & Betty Butler

I think the people opposing this have never liked delicious oysters. They are an endangered species since the oil spill in the Gulf.

Reference No. L7617

Dear Superintendent,

As a member of the Sierra Club, San Francisco Chapter, I write to endorse Alternative A.

With the Sierra Club, I support Alternative A, which will allow the lease to expire and Drakes Estero to become part of the existing Phillip Burton Wilderness, as it was originally intended. The present owners of Drakes Bay Oyster Company, when they bought the company, knew that the lease would expire in 2012, and they should not be given an extension for 10 years. To allow the continuation of the business on lands that Congress has designated to become wilderness would set an undesirable precedent for the entire federal wilderness system from coast to coast.

Yours truly,

Genevieve Fujimoto

Dear Catelyn Muldoon,

I support the NO ACTION alternative, alternative A.

I worked at the Pt Reyes Farmer's market and was the Librarian at the Inverness library for more than twenty years so I know the Lunny family well. Ever since they purchased the lease to Johnson's Oyster Co they have been on a crusade to expand their use permit. I hike out to the Estero often - I have seen mountain Lions, Bob cats, 3 species of owls, the western Bluebird and many other wild creatures there.

I want to see this land revert to wilderness as planned on November 30, 2012.

Thank you for gathering public comments.

Sincerely, Pamela Kroner

Dear gentleperson,

Although I am a member of the Marin Audubon Society, I do not wish the Drakes Bay Oyster Company to leave. I believe in such hard times it is cruel to destroy jobs; and considering we are as a society rapidly approaching food collapse it is stupid as well.

I live in Marin but there are many foolish elitists here who only see birds or whatever & fail to comprehend the human misery that surrounds them & also to consider that oysters filter the water & provide wildlife with a cleaner environment. Simply, these rich people would just as soon throw a dozen people into the street to provide an egret with another 10 feet of habitat.

That's the type of people they are; clueless, tone deaf, self-obsessed; please don't follow them. Choose compassion and common sense -- don't fix something that isn't broken, and don't cave into these rich bastards who care nothing for anyone except the objects of their particular hobby.

Thanks.

Regards,

Thomas Mullin

DEAR SUPERINTENDANT -

I URGE you TO

SUPPORT ALTERNATIVE A -

"NO ACTION"

ALLOW THE LEAST to expire

+ DRAMES ESTERO to become Wil Danner

THANKS -

DAVID SCHNEIDER, O.D.

Comments regarding the Draft EIS for the Drakes Bay Oyster Company Special Use Permit:

While visiting California State & National Parks we heard is was being considered closing of the Oyster Farm at Drakes Bay at the Eastern Shoreline -

It seems that this farm has a long history at this site - should be reconsidered before closing it down there does not appear to be any damage being done to bay -

a recent visitor from Massachusetts
