### Be safe, protect the natural and cultural resources, and always allow for other visitor access.

All filming will be done in such a way that provides for the protection of park resources and for the positive experience of the visitor. The safety of park visitors and employees, and film crewmembers will be ensured during all filming activities.

Do not alter, move, or disturb any park feature. All rocks, historic walls, standing and downed wood, plants, animals, and other features are protected by federal law against disturbance, removal or destruction.

All crewmembers that are not essential to the operation should remain on trails or in the parking lot to reduce impact to an area.

Always allow for visitor access, use, and enjoyment of an area.

Park all vehicles in designated paved parking areas. Always allow for other visitor access: this may mean that crew members serve as a lookout to watch for visitors entering filming location or area to avoid interruptions.

Do not enter areas closed to the public unless permission is preauthorized through an approved special use permit and the crew is physically accompanied by US National Park Service personnel.

### The National Park Service is required to recover costs associated with filming:

The park may assign a ranger to your group for part or all of the shooting. The ranger will monitor the film crew's activity, provide essential resource protection and safety information, and inform visitors about the special use activity. Ranger staff may also be assigned to provide historic and resource education interviews. The park ranger fee is \$50 per hour with a two-hour minimum.
