FIND YOUR PARK

YOU'RE HERE DURING AN EXCITING TIME!

Not only is it summer, when the mountains come alive—it's also the 100th birthday of the National Park Service. We're glad you're here to join the party. How can you help us celebrate?

First, whether it's your first visit or your 100th: enjoy your time here at Rocky Mountain National Park. Stop by our visitor centers, hike a trail, take a scenic drive, join a ranger-led program, watch wildlife—the options for exploring Rocky abound.

After your visit, find out more about other national parks by visiting FindYourPark.com. There, you can find parks near your home, learn about the diversity of stories that national parks tell, and see how other people throughout the country have connected to the parks that are meaningful to them.

Finally, we encourage you to share your park experiences with your friends, family, and neighbors—especially those who may have never visited a park before. Let them know why national parks are special to you.

Free Park Movie

SEE THE STUNNING 23-MINUTE PARK MOVIE *Spirit of the Mountains* in the Beaver Meadows and Kawuneeche visitor centers.

Beaver Meadows has assisted listening devices for audio description and amplification and induction loops for those with hearing aids. Both visitor centers have a captioned version of the park film and a version *en Español*. All park visitor centers are accessible.

Looking for things to do during your visit?

- **Check out our visitor centers and watch our park movie (see right and bottom left).** Both activities are great introductions to the park.
- **Go on a ranger-led program.** Ranger-led programs are a great way to learn more about the topics that interest you, join in fun activities, and see new parts of the park. For a full schedule of programs, see pages 4–7 or visit go.nps.gov/RockyCal.
- **Become a Junior Ranger.** Pick up a free Junior Ranger activity booklet at any visitor contact station, discover the park, and become a ranger by earning your badge! See the bottom of page 7 for details.
- **Hike a trail.** Rocky has hundreds of miles of trails, from montane forests to alpine tundra. Some of our most popular trails are listed on page 8.
- **See the Milky Way.** Rocky's night skies are truly stunning. Learn more about night skies on page 10 and at our ranger-led night sky programs (pages 5 and 7).

Stay Safe

Be Responsible

IT IS YOUR RESPONSIBILITY TO BE safe and to know and obey park rules. You can find park safety information, rules, and regulations at visitor centers, entrance stations, trailhead bulletin boards, and the park website at nps.gov/romo.

 **Altitude Sickness affects many visitors every year.** Symptoms include headaches, nausea, fatigue, dizziness, vomiting, and in acute situations, even unconsciousness. Altitude can also aggravate preexisting conditions like heart and lung disease. Take your time, drink plenty of water, eat lightly, and rest. The only cure for altitude sickness is to go down to a lower altitude.

 **Backcountry Travel** should be done in a group, not alone. Leave a detailed trip itinerary with a friend. This helps park authorities if you fail to return. Mountain weather changes quickly. If conditions are more difficult than anticipated, turn around. Longs Peak, a popular climb, can have treacherous ice and snow any time of year. Camping is only allowed in designated sites (see page 9).

 **Bicycles** are prohibited on trails. They are permitted on all roads open to motor vehicles, paved and dirt, unless otherwise posted. There are no designated bicycle lanes in the park. Roads are narrow with few or no shoulders—ride with care. By law, you must ride single file. Shuttle buses do not accept bicycles. Visit go.nps.gov/RockyBicycling.

 **Campfires** are permitted only in campgrounds and picnic areas with fire grates. During high fire danger, campfires may be prohibited. You can purchase firewood at campgrounds in summer. Collecting vegetation, dead or alive, is prohibited.

 **Cell Service is unavailable in much of the park.** Don't depend on a cell phone for emergency help.

 **Drones are not allowed anywhere in Rocky Mountain National Park.**

 **Falling Trees are an ever-present hazard** and can fall without warning. Be extra careful around dead trees when it's windy or following a snowstorm.

 **Firearm Possession** in the park is permitted for those legally authorized to possess firearms under federal, Colorado, or local laws. However, hunting, recreational shooting, and target practice are illegal. Federal law prohibits firearms in park buildings and facilities. Those legally allowed to carry firearms must comply with all applicable state and federal firearm laws.

 **Fishing** requires a Colorado state fishing license. Trout in the park include brown, brook, rainbow, and cutthroat (including the protected Colorado River and greenback). Not all park lakes have reproducing fish populations. For more information, visit go.nps.gov/RockyFishing.

 **Hypothermia can happen any time of year.** Watch for drowsiness, impaired judgment, excessive shivering, and slurred speech. To prevent, wear insulated, wind-proof layers and drink plenty of fluids.

 **Lightning regularly strikes in Rocky.** There is no safe place in the backcountry when lightning strikes. Check the forecast before heading out. Watch for building storm clouds. Plan activities so you can quickly return to your car if a storm begins. If hiking, plan to return to the trailhead before noon, and return to the trailhead immediately if you hear thunder.

 **Marijuana possession and use is illegal in Rocky Mountain National Park and all federal lands,** even though small amounts of recreational marijuana are legal in Colorado.

 **Pets are prohibited on ALL park trails, tundra, and meadow areas.** Leashed pets are only allowed in picnic areas, parking lots, campgrounds, and along roadsides. Never leave pets in vehicles if it puts them in danger or they become a public nuisance. When outside vehicles, pets must be on leashes no longer than six feet. **Service animals** that have been individually trained to perform specific tasks for the benefit of persons with disabilities are allowed in the park. **Emotional support (“therapy animals”) and service-animals-in-training** are not service animals under the Americans with Disabilities Act and may not access trails or other non-motorized areas.

 **Rivers and Streams can be deadly.** Park waters are frigid. Powerful currents can knock you over and pull you downstream or underwater, where you may become trapped. Streamside rocks are often slippery, and nearby water may be deep. Always closely supervise children around all water but especially near rivers and streams.

 **Take only pictures.** It is illegal to take any natural features including pinecones, rocks, antlers, and artifacts or to disturb soil, rocks, or vegetation (including flowers). Metal detector use is prohibited.

 **Ticks are out.** In areas with plants, particularly tall grasses, regularly check yourself for ticks. Wear long sleeves, pants, and repellent with DEET. If you find an embedded tick, slowly pull it straight out with tweezers. Ticks can carry disease, including Colorado Tick Fever.

KEEP WILDLIFE WILD Never feed or approach wildlife

Many amazing animals call Rocky home. To keep them and you safe and comfortable:

- Obey wildlife closure areas and “no stopping” traffic zones.
- Use parking areas along the road. If not available, pull your vehicle completely off the road and do not park on vegetation.
- Keep a safe distance. If you cause an animal to move or change behavior, you are too close! Approaching an animal puts you at risk and may cause it stress, leading to disease and illness.
- Never feed wildlife, including birds and chipmunks.

 **Bears and Mountain Lions**
Seeing a bear or mountain lion is rare, and interactions are even more rare. However, keep the following in mind:

- Travel in groups and make noise as you hike closely together. Keep children close! A predator does not distinguish a running child from running prey.
- If you see a bear or mountain lion, stop, stay calm, and back away slowly. Never approach wildlife or turn your back and run. Stand tall and look large. Raise your arms. Protect small children by picking them up.
- If approached, make loud noises, shout, clap hands, bang pots or pans, and fight back if attacked.

See Camping (page 9) to learn how to properly store food and other scented items.

Road Conditions

Trail Ridge Road is open for the season, weather permitting. It usually closes for the winter in mid-October, depending on weather and road conditions.

Old Fall River Road is scheduled to open to motorized travel in early July.

Weather permitting, lower elevation paved roads, including Bear Lake Road, remain open year-round.

For current park road and driving conditions:

- Stop at a visitor center
- Call the Trail Ridge Road status line **970 586-1222**
- Visit go.nps.gov/RockyRoads

Tips for a Great Visit

Navigate Crowds and Congestion During the Busy Summer Season

Visitors on Moraine Park Road

NPS PHOTO

LAST YEAR, ROCKY WAS THE THIRD MOST visited national park with over 4.1 million visitors—more than Yellowstone or Yosemite!

For over 100 years, visitors like you have come from all over the country and world to experience nature, seek solitude, enjoy scenic grandeur, watch wildlife, and enjoy outstanding recreational activities. The park is blessed to have so many people who love and care for it.

But love and high visitation can also mean long lines at entrance stations, full parking lots, congested roads, and busy trails. This is especially true in summer, when blue skies, blooming flowers, and warm temperatures beckon us all to soak in the beauty of the high country.

Luckily, there are steps you can take to make your trip as fun-filled as possible and to help your fellow visitors enjoy their trip, too.

Hiking

- **Hike early.** Trailhead parking lots fill early in the morning.
 - Glacier Gorge Trailhead: 6:00 am
 - Bear Lake Trailhead: 8:30 am
 - Park & Ride: 10:30 am
 - Wild Basin Corridor: 9:30 am

Starting early increases your odds of getting a parking spot, lets you enjoy the beautiful morning light, and helps you finish your hike before afternoon thunderstorms strike.

- **Want to hike in the Bear Lake corridor and plan to arrive after 11 am?** Take the free hiker shuttle from the Estes Park Visitor Center! See details on the back page.
- **Hike late.** Trails and trailheads are often much less busy in the evening. Cooler temperatures, more active wildlife, and soft evening light will greet you. Before heading out, check the forecast for your hike's elevation to make sure you don't get caught in dangerous weather.

Driving and Transportation

- **Carpool.** Here with a group? Consider leaving some cars at home or your hotel and carpooling together to the park.
- **Take advantage of the FREE park shuttle.** See details on the back page.
- **The Alpine Visitor Center parking lot is busy from 10 am to 3 pm.** Again, arriving late or early will help you miss this most crowded time of day.
- **Expect long lines from 10 am to 3 pm at Beaver Meadows and Fall River entrance stations.** You can see current lines by viewing our entrance station webcams at go.nps.gov/RockyWebcams.

Camping

- **Arrive early, and reserve your campsite ahead of time if possible.** Aspenglen, Glacier Basin, and Moraine Park campgrounds are fully reservable and usually fill six months in advance. Longs Peak and Timber Creek campgrounds are first come, first served, but they too can fill.

Protect the Fragile Alpine Tundra

IMAGINE A PLACE SO COLD, WINDY, and extreme that even the hardest trees cannot survive. Tiny flowers wait out the long winter to bloom for a few brilliant weeks in summer. Views extend seemingly forever in all directions as the sun beams down on rock covered with a thin layer of soil.

This is the alpine tundra, which makes up about one-third of Rocky Mountain National Park.

While seemingly hardy, the tundra is in fact quite fragile. Repeated footsteps often destroy tundra plants, allowing exposed soil to blow away. Recovery may take hundreds of years.

To protect the tundra, we need your help!

- You must stay on trails in the park's six Tundra Protection Areas:
 - Alpine View Trail
 - Alpine Visitor Center area
 - Forest Canyon overlook
 - Gore Range overlook
 - Rock Cut overlook
 - Tundra Communities Trail
- Use trails where they exist.
- Never walk single file off trail.
- Step on rocks or gravel where possible.
- Pets are prohibited on ALL tundra areas.

Become a Junior Ranger

JUNIOR RANGERS AT ROCKY MOUNTAIN National Park have fun discovering the natural world and learning why we need to protect our national parks. We need the help of all our rangers to keep Rocky protected for many years to come. Pick up a free Junior Ranger activity booklet at any visitor contact station, discover the park, and become a ranger by earning your badge! There are activity books for kids ages 5 and under, 6–8, and 9 and up.

You can attend an astronomy program on Friday nights to earn the Junior Ranger Night Explorer patch, and on Thursdays at Junior Ranger Headquarters you can become a Junior Wildland Firefighter by learning about fire's role in shaping our park lands. The park's Junior Ranger Program is funded by the Rocky Mountain Conservancy and is a great way to get kids out exploring and discovering their national park.

WebRangers is the online extension of the Junior Ranger program. It's a website for kids of all ages. If you love our national parks, historic sites, and monuments, then this site is for you. <http://www.nps.gov/webangers/>

Camping Information

Overnight stays in Rocky Mountain National Park must be in a campground or designated wilderness site. You are not allowed to stay overnight in a car or RV along roads or at trailheads.

All park campgrounds usually fill on summer days and fall weekends. Reservations for late-May through September can be made six months to one day in advance and are highly recommended. To make a reservation:

- reserveamerica.com
- recreation.gov
- **877 444-6777**

Fees to Camp

- When the water is on (summer), all campgrounds are **\$26 per night**.
- When the water is off (winter), Moraine Park Campground Loop B is **\$18 per night**.
- America the Beautiful Senior and Access Pass holders receive a 50 percent discount on camping fees.
- Park entrance and camping fees may be paid in US currency by major credit card or debit card, cash, or check.

Stay Limits

You can stay no more than seven nights TOTAL between June 1 and September 30, plus an additional 14 nights from October 1 to May 31. Stay limits are on a parkwide, rather than per campground, basis.

At All Standard Campsites

- Eight people or less may camp at a given site.
- All campsites, including RV sites, have a tent pad, picnic table, and fire grate.
- Shared food storage lockers are available throughout all campgrounds.
- Tents must fit on the tent pad. Two or three tents are allowed, as long as they fit.
- There are no electric, water, or sewer hookups at any park campsites.
- There are no shower facilities in the park, but showers are available in nearby communities.
- Portable showers are prohibited except in two solar-heated shower bag stall facilities at Moraine Park Campground.

- Remember, toiletries attract wildlife and need to be properly stored when not in use.

Pets

All campgrounds allow pets with certain restrictions:

- Pets must be on a leash no longer than six feet.
- Owners must pick up and dispose of pet excrement in trash receptacles.
- Pets may not make noise that impacts visitors or wildlife.
- Pets are never allowed on park trails or in meadow areas.
- Pets should never be left unattended.
- Keep a clean camp! Never leave pet food unsecured or unattended.

Food Storage

Do not attract wildlife, including black bears, to your campsites.

Improperly stored or unattended food items will result in a violation notice. Food items include food, drinks, toiletries, cosmetics, pet food and bowls, odoriferous attractants, and garbage, including empty cans, food wrappers,

etc. These must be disposed of in trash or recycling receptacles.

Hummingbird feeders and bird feeders are not allowed. They attract wildlife like raccoons, elk, deer, and bears. Coolers, dirty stoves, grills, non-disposable tableware, and cookware must be washed and stored just like food. Camp kitchens must be kept clean and individual items properly stored.

In campgrounds, store all food items in food storage lockers. If full, store food:

- Inside vehicle trunks with windows closed and doors locked.
- If you don't have a trunk, put items in the passenger compartment as low as possible and covered from sight, with windows closed and doors locked.
- If driving a convertible or motorcycle, use food storage lockers, available in all park campgrounds. Food storage lockers are shared with other visitors and cannot be locked. Food storage lockers are shown on all campground maps.

Wilderness Camping

Permits and Fees

Overnight stays in the wilderness require a permit available at the Beaver Meadows Wilderness Office or Kawuneeche Visitor Center. To learn more or make a reservation (highly recommended for summer), visit go.nps.gov/RockyWildernessCamping.

A \$26 fee is required between May 1 and October 31. This nonrefundable, non-exchangeable fee must be paid when reservations are made.

To protect visitors and wildlife, wilderness campers must use carry in/carry out, commercially-manufactured, hard-sided, bear-resistant food storage containers in all areas of the park between April 1 and October 31. Containers may be rented or purchased at outdoor shops in nearby communities.

Leave No Trace

Over four million people visit Rocky every year. Whether hiking, camping, or driving, keep your park beautiful by practicing Leave No Trace Ethics.

- Plan ahead and prepare
- Travel and camp on durable surfaces
- Dispose of waste properly
- Leave what you find
- Minimize campfire impacts
- Respect Wildlife
- Be considerate of others.

Sprague Lake Accessible Wilderness Campsite

Contact the Wilderness Office at **970 586-1242**. 12 campers with up to five wheelchair users can stay at the site. A \$26 administrative permit fee is required from May 1 to October 31.

Half the Park is After Dark

By Jeremy White and Cecilia White, NPS Natural Sounds and Night Skies Division

YOU'VE SPENT YOUR DAY ENJOYING Rocky Mountain National Park. But just because the sun has set doesn't mean your day is over. All night, the sky above Rocky puts on a show: stars, planets, and even the Milky Way can be seen on a clear night. Throughout history, humans have looked to the stars as a source of inspiration. Tonight, you have the opportunity to experience your own connection to our universe.

Views of the cosmos are becoming rare in our brightly lit modern world. Light pollution from unshielded or overly bright outdoor lighting masks our ability to see the night sky. Fortunately, national parks protect some of the last refuges of natural night skies. Rocky is working to preserve the natural lightscape of the park by shielding its lights, using light only where and when necessary, and working with neighboring communities to reduce escaped light. Protecting the night

sky not only benefits park visitors but also protects the habitat of nocturnal animals, including owls and bats, who rely on natural darkness to survive.

Night skies at Rocky are spectacular. The Milky Way, our own galaxy, arcs across the sky as a river of ethereal light. To maximize your night sky viewing experience, find a dark area, such as Upper Beaver Meadows. For the more adventurous, a drive up Trail Ridge Road will get you even closer to the stars. Let your eyes adjust to the darkness for 10–15 minutes, then watch as the magnificent night sky is revealed

To learn more about the night sky and what the NPS is doing to protect it, attend a ranger-led night sky program (see pages 5 and 7) or visit www.nature.nps.gov/night.

Exclosure fence in Horseshoe Park

What's Up With Those Fences?

By Hanem Abouelezz, Landscape Ecologist

ELK EXCLOSURE FENCES ARE ONE of the main tools used in Rocky Mountain National Park to protect important streamside (riparian) habitat. The fences keep elk from over browsing precious aspen and willow communities.

Historically, natural predators like wolves and grizzly bears kept elk at levels their habitat could sustain. But more than 100 years ago, these predators were hunted to local extinction. With predators gone, the elk population got larger and less migratory. Aspen and willow habitat became significantly degraded.

From 2008 to 2012, fencing was installed to protect around 211 acres of riparian habitat on the east side of the park. These fences are about 6 feet tall with a 16 inch gap at the bottom. This keeps elk out but lets other wildlife in.

The vegetation is being monitored by park staff, and in some places, like Moraine Park, additional willow are being planted to assist in the recovery.

The fences are temporary and will stay in place until these riparian communities are once again healthy and able to withstand elk browsing.

Can I Go In the Fence?

Yes! Take a moment to explore the rebounding habitat inside the exclosure areas. Enjoy plentiful fishing. Watch beautiful and varied birds. See aspen and willow continue to recover, especially in fall, when the aspen show their golden colors.

Green Your Ride

JOIN ROCKY MOUNTAIN NATIONAL Park in our efforts to cut emissions, save fuel, and improve air quality.

By taking a few simple actions during your visit, you can make a difference and help keep Rocky beautiful for generations to come.

Reduce vehicle idling, which wastes fuel, creates noise, and pollutes the air. Turn off your engine while parked, waiting at wildlife crossings, or stopping to take photos.

Take the FREE Shuttle! See page 12 for schedule and details.

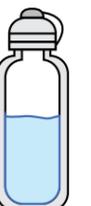

Recycling containers

NPS PHOTO

Reduce, Reuse, Recycle

GLASS, PLASTIC #1 THROUGH 7, and aluminum may be recycled in campgrounds and major locations. Look for recycling containers or ask at any visitor center or campground for their locations.

Help us reduce plastic bottle use! There's limited drinkable water in the park. Please remember to bring your own reusable containers and refill them at park visitor centers.

Park Partners

Did You Know That Rocky Mountain National Park Has Sisters?

IT'S TRUE! Rocky has "sister" park relationships with national parks in Poland, Slovakia, and Costa Rica.

Eight years ago, Rocky Mountain National Park signed a sister park agreement with the Tatra National Parks in Poland and Slovakia. All three are mountain parks and international biosphere reserves.

In 2012, Rocky signed another agreement with the Monteverde Cloud Forest, Santa Elena Cloud Forest Reserve, Children's Eternal Rainforest, and Arenal National Park in Costa Rica. What do we share with places in Costa Rica? Birds! Over 150 species of birds, like the Yellow-rumped Warbler (lower right), share the ecosystems of Rocky and Costa Rica.

Since 2007, we have engaged in staff exchanges and conferences, started joint science projects, and shared ideas and lessons learned. Issues

that once seemed specific to a single park or country are now seen through a global lens and recognized as common to many protected areas.

The future of protected areas is international. As Shakespeare said, "One touch of nature makes the whole world kin." Working with colleagues in our sister parks reminds us to think a bit larger in preserving our global landscapes for future generations.
