lake sturgeon

The Namekagon River is named after an Ojibwe word meaning "place where the sturgeon are." Look for them resting under overhanging river banks.

In This Stretch

- Downstream of **County Road K Landing** the river is narrow and contains riffles.
- Downstream of **Howell Landing** the river is somewhat rocky until you pass Highway 77, then it becomes sandy.
- Fritz Landing can be hard to see. Watch for a small island and use the left channel if taking out there.
- The river widens after **McDowell Bridge Landing**. After Namekagon Trail Landing the river becomes rockier with riffles and there are several Class I rapids before the confluence.
- The St. Croix River has a rocky bottom and is shallow, making it challenging during low water conditions. There are more rapids as you approach **Riverside Landing**.
