Pre Woolsey Fire

## Hollywood Retreat

For nearly a century, people have enjoyed leisure and recreation at this site, but in November 2018, the Woolsey Fire burned through much of the area.

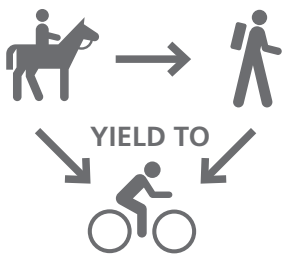

Although some nearby structures were spared, the most destructive fire of this region's history took one of the most beloved historical buildings in the area – the Peter Strauss Ranch house, built in 1927 and a National Historic Register site.

Named for Emmy Award-winning actor Peter Strauss, this park, formerly known as Lake

Enchanto, still delights nature lovers and intrigues history buffs. Oak woodlands, a seasonal creek, easy trails, a lawn area, and an amphitheater provide a wonderful location for visitors of all ages to have fun outdoors.

Near the restrooms, you will discover an Italian terrazzo tile concert area (1939) where country legends Johnny Cash and Willie Nelson performed. Also, you will see the relic of an enormous outdoor swimming pool with a small stage in the center.
