ATTACHMENT A COMPETITIVE CUA PROCESS INFORMATION

1. **CUA Application Open Season:** Applications for a CUA to operate in wilderness within SEKI in 2024-2025 will be accepted during a designated 'open season' – beginning August 1, 2023 and ending August 31, 2023. CUAs for commercial services in wilderness will be authorized for a 2-year period, January 1, 2024 thru December 31, 2025. Application packets must be received by August 31, 2023 to be considered for a 2024-2025 Wilderness CUA. Incomplete application packages, or packages not received by the deadline will not be considered. Applicants will not be contacted regarding missing or late information after the deadline. Applicant requests for written, post award debriefs will be at the discretion of the Service.
2. **Three-step NPS Qualification Process:** All complete applications will be reviewed using a 3-step qualification process. If more complete applications are received than the number of CUAs and CSD allocations available, applicants will compete for the award of a CUA and CSD allocation as described in steps two and three below.
 1. The first step represents an initial qualification to ensure that specific requirements for each authorized activity are met and the required information has been provided. During this initial qualification, the NPS will determine if the application is complete and meets the minimum qualifications as set forth in the Application Appendices (“Attachments A-G”). If the number of complete and qualified applications is less than or equal to the number of CUAs and CSD allocations available, the NPS will award the CUAs and CSD allocations to those qualified applicants. If the number of complete and qualified applications is more than the number of CUAs and CSD allocations available, the NPS will award the CUAs and CSD allocations using the competitive process described below in steps two and three.
 2. The second step is the qualification round. The Superintendent will select the most highly qualified applicants on the basis of the applicant’s Narrative Response (Attachment B) explaining its experience and ability to meet and exceed the CUA requirements of: (1) resource protection; 2) safety, and; (3) relevant experience and operating history. Selected applicants will receive 2-year CUAs to operate within SEKI wilderness. Operators with unsuccessful submissions will not be authorized to operate in SEKI in 2022-2023 but will have an opportunity to re-apply in 2023 for the 2024-2025 season.
 3. The third step is the CSD allocation round. Each selected application receives an allocation as described in “Attachment C”. 100% of Wilderness Wide Stock CSDs will be distributed equally across all selected stock CUAs. Applicants who elect to be considered for operations in the Mount Whitney Management Area (MWMA) will be evaluated through a competitive process. Up to six (6) selected applicants will be allocated an equally distributed Mount Whitney Management Area allocation. Applicants will only be evaluated for a MWMA allocation if they checked box 1b in the application.
3. **CUA Confirmation and CSD Award:** All CUA applicants will receive a response from the Commercial Services Office no later than 60 days after the application closing date. The NPS will email awardees a CUA for signature and acceptance of CSDs and operating terms and conditions. Applicants can accept the CUA award and CSD allocation or reject the base CSD allocation and forfeit the CUA award. If the applicant forfeits the CUA award, the applicant applications will not be authorized for operation January 1, 2024 through December 31, 2025.

SPECIAL PARK CONDITIONS
SEQUOIA AND KINGS CANYON NATIONAL PARKS
WILDERNESS COMMERCIAL USE AUTHORIZATION CONDITIONS**

THESE CONDITIONS ARE APPLICABLE TO ALL AUTHORIZED ACTIVITIES OR AREAS LISTED ON THIS AUTHORIZATION. **All pages of this authorization must be carried and available for inspection by the Holder or its employees at all times while operating within Sequoia and Kings Canyon National Parks. Failure to carry all pages is a violation of terms and conditions of this authorization.**

1. **Authorization Compliance** – Violations of the authorization terms may result in either a citation or warning by and at the discretion of field staff. Citations may subject the commercial operator to penalties as prescribed by law or regulation. Warnings do not carry criminal penalties but are official notice of non-compliance. Either warnings or citations may result in actions against the provider's authorization, including suspension of the authorization or exclusion from doing business in the parks. The holder must comply with all of the conditions of the authorization, including all exhibits, amendments, application requirements, and written or verbal directives from the Superintendent.
2. **General Operation Requirements** – This CUA includes the seasons and levels of use for all commercial activities, approved use of NPS trails, roads, and routes, and guidelines and limits for assigned use allocations. The Holder shall carry out the provisions of their operating plan and shall require employees and agents to do likewise.
3. **Service Type – Wilderness CUA** – Advertisement and operation of distinct commercial trips in wilderness, including transitory use of front-country areas as a means to enter and exit wilderness areas, are authorized under the Wilderness CUA. Authorized services include those listed on page 1 of this CUA. Advertisement or operation of commercial trips in non-wilderness areas fall under one of two non-wilderness Service Types (front-country or road-based commercial tours), and require a separate CUA. Non-wilderness operations are not authorized under the Wilderness CUA. Additional information can be found on the front-country CUA application.
4. **Commercial Service Days (CSDs)** – Holders must operate within assigned CSD allocations. CSDs are non-transferrable. A commercial service day (CSD) is defined as "all or part of a day spent by a client of a commercial service provider on NPS-managed lands." WSP/FEIS, Appendix B Extent Necessary Determination, Page B-6. (See also Attachment C, Competitive Commercial Service Day (CSD) Allocation Selections).
5. **First-come, first-served (FCFS) CSD Pool** – The FCFS pool will commence with zero days. FCFS days may become available if CSDs are returned to the park. Operators will be notified on a recurring basis if and when FCFS days become available. When available, FCFS requests must be submitted via email to seki_cua@nps.gov. FCFS days will be awarded in the order requests are received.

The FCFS request must clearly demonstrate that the CUA Holder has exhausted its base allocation and is requesting a specific number of Wilderness Wide and/or Mount Whitney Management Area CSDs for verifiable clients for the current calendar year. FCFS requests will be processed in the order they are received as CSDs become available.

CUA holders will be notified of the status of their FCFS CSD request via email from seki_cua@nps.gov. If an individual contacts a guide company but does not hire the company for a specific use in Wilderness Wide or Mount Whitney Management Area on specific date(s), then requesting additional CSDs and verifying clients is misrepresentation and may result in exclusion from the FCFS CSD pool.

6. **Redistribution of CSDs** – CUA Holders are strongly encouraged to return unused and un-booked CSDs to the FSCS pool for redistribution. CSDs are non-transferrable amongst CUA Holders. CSDs from cancellations or group size reductions may be returned via email to seki_cua@nps.gov. Returned CSDs will be made available when the FSCS pool opens. All unused CSDs allocated to a CUA which is terminated by the CUA holder will be redistributed to the FSCS pool.
7. **Reporting Requirements** – 1) Visitation Use Statistics (VUS) for actual use must be submitted monthly on the Trip Report Form (NPS Form 10-660A) by the 15th of the month for the preceding month, i.e. June use is reported and due by July 15th, 3) Annual Report (NPS Form 10-660), summarizing and reporting annual gross receipts is due by November 30th. All reports must be submitted to seki_cua@nps.gov. CUA holders are required to report all trips within SEKI boundaries as a condition of their permit. See Attachment H: Supplementary Information.

De minimis entry- Trips occurring on the Sierra Crest may be eligible for reporting under *de minimis* entry. *De minimis* entry is a term used by SEKI to distinguish use along the Sierra Crest where entry into the parks is unverifiable and too trivial or minor to merit consideration in reporting of CSDs. Operators must report proposed *de minimis* entry trips in their trip reports but will enter "0" as the number of CSDs logged.

- 8. Fees** – The Holder will be required to pay all applicable park fees (e.g. entrance, wilderness permit, commercial use, etc.). A non-refundable Application Fee of \$800 is required when submitting an application for consideration for Wilderness CUA. If awarded a CUA, the Holder is required to remit an annual Market Price Fee based on gross receipts at the end of each calendar year. Gross receipts will be reported on the Annual Report (NPS Form 10-660) due each year on November 30th.

Gross Receipts	Fee Percentage
For gross receipts between \$0.01 and \$250,000.00	3% of gross receipts
For gross receipts between \$250,000 and \$500,000	4% of gross receipts in addition to the prior amount
For gross receipts over \$500,000	5% of gross receipts in addition to the prior two amounts

The previously paid non-refundable application fee will be deducted from the market price fee. If the market price fee is less than the non-refundable application fee, then no market price fee is due for that year and the NPS will retain the non-refundable application fee. These fees will remain in effect until December 31, 2023 at which point it may be revised in accordance with Section 418 of P.L. 105-391, 36 CFR 5.3, and RM48B Interim CUA Guidelines, and associated guidance from the Washington Area Support Office and the Interior Regional Office 8, 9, 10, 12. Operators will be issued an annual bill for any balance due. Payment is due within 30 days of billing and will be paid through [pay.gov](https://www.pay.gov). Failure to pay assessed fees will result in revocation of the CUA. Review the Parks' [website](#) for Fee Schedule and Payment Information.

- 9. Business Operations** - This authorization does not authorize the Holder to advertise, solicit business, collect any fees, or sell any goods or services on lands owned and controlled by the United States. The Authorization is for incidental business operations when there are no fixed commercial facilities within a national park area, the commercial activity originates and terminates outside the parks, no money changes hands on park lands and no commercial solicitation occurs on park lands.
- 10. Area Use** – This authorization is applicable only for the use of the area, term, and conditions designated herein. The area(s) authorized for use under this authorization must be left in substantially the same condition as it was prior to the activities authorized herein. Approved wilderness activities are permitted in all areas of the wilderness of Sequoia and Kings Canyon National Parks with the exception of service-specific restrictions. The Superintendent reserves the right to close any area to commercial activities if conditions warrant.
- 11. Nonexclusive Authorization** – The Holder will have none of the rights or privileges of P.L. 105-391, Title IV [National Park Service Concessions Management Improvement Act of 1998] specified for concession contracts. The National Park Service (NPS) does not grant the Holder a preferential or exclusive right to conduct business in any NPS administered area.
- 12. Wilderness Public Use Restrictions and Permits** – Holder is required to abide by all applicable Wilderness Public Use Restrictions, including wilderness permits, trail information, the [Minimum Impact Restrictions, stock requirements and regulations regarding overnight travel requiring a Wilderness Permit](#). Maximum group size is 15 people including guides when on trail and 12 people including guides when off trail, except in areas noted in the Minimum Impact Restrictions. Permits are required year-round for all overnight wilderness trips; obtain your permit from the trailhead's managing agency. Information on wilderness trip planning and wilderness requirements are available on the parks' website <https://www.nps.gov/seki/planyourvisit/backpacking.htm>.
- 13. Damages** – The Holder shall pay the United States for any damage resulting from this use which would not reasonably be inherent in the use which the Holder is authorized to make of the land described in this authorization.
- 14. Company Identification** – All guides must be visibly identifiable, displaying which company they represent.
- 15. Employee/agent responsibility** – The Holder shall ensure that all company employees and transportation operators entering the parks are informed of all of the conditions of this authorization. (The Holder may be cited for any authorization violations committed by their employee and/or agent.
- 16. Behavior and Conduct** – The Holder and its agents are required to exercise courtesy and consideration in their relations with the public and with NPS employees, volunteers or other park agents. The Holder will review and correct the conduct of any of its employees whose actions or activities are considered by the Service to be inconsistent with the experience, enjoyment, and protection of visitors and stewards of public land.
- 17. Guides** – Each group must have one guide identified as the Lead Guide who will remain with the group at all times. If the party is divided into more than one group, each group will have a Lead Guide. The Lead Guide will inform the group of all park rules and regulations and has responsibility for the group.

- 18. Guide Registration and Qualifications** – The Holder will employ a staff with the expertise to operate all services authorized under this CUA as outlined in Attachment F. The CUA Holder Guide Registration and Certifications Template, or document containing equivalent information listing all guides, and their guide qualifications and medical training must be submitted to the Commercial Services Office at least 30 days prior to operating in Sequoia and Kings Canyon National Parks. Copies of certificates need not be submitted unless requested by NPS. Failure to provide the necessary documentation will lead to the suspension or revocation of the CUA. Training requirements vary depending upon services being provided.
- 19. Guide Equipment** – A group size first aid kit will be carried by each group. The guide will carry a light source, a map and compass, a small shovel, toilet paper and plastic baggies for appropriate disposal of human waste. Guides will be prepared for emergency situations where they may need to revise their original trip plan to accommodate clients who may be struggling to complete their intended activity. Some recommended additional items include an extra light source, extra food and water, sunblock, and emergency overnight equipment.
- 20. Client Equipment** – The Lead Guide will ensure that each member of the group has adequate food and water for the proposed itinerary, appropriate footwear, clothing and a light source. Each participant will be supplied with a map (may be photo-copied) of the trail. Clients will be prepared for emergency situations where the original trip plan may need to be revised due to unforeseen emergency situations. Some recommended additional items include an extra light source, extra food and water, sunblock, compass and emergency overnight equipment.
- 21. Trip Orientations** – The Lead Guide must provide an orientation to clients for the proposed itinerary prior to the trip start and be capable of revising the itinerary for the group or an individual if an emergency situation occurs. The orientation must emphasize safety and include basic etiquette when passing other trail users or mules, Leave No Trace principles, park rules and regulations, safety and emergency procedures, bear habitat concerns, litter, human waste, the nature, demands and dangers of the trip. Guides will provide their clients with accurate information on a broad spectrum of topics related to the Sequoia and Kings Canyon National parks, including, but not limited to, geology, wilderness impacts, history, ecology, etc.
- 22. Fitness** – Travel in SEKI has inherent risks and CUA Holders assume complete responsibility for their own safety and that of the staff, volunteers and clients under their care. Rescue is not a certainty. Wilderness users should be in good physical condition and should be able to survive on their own by taking the necessary precautions and equipment. Guides should evaluate the fitness of their clients and adjust trip plans to accommodate fitness levels.
- 23. Emergency Operations Plan** – The CUA Holder must have an emergency operations plan for SAR and EMS incidents in the Park. Upon request of the Parks, the holder of the awarded CUA must provide a copy of its emergency operations plan to the Parks.
- 24. Additional Insurance** – Automobile liability insurance and/or Workers' Compensation Insurance may be required depending on operations. See Attachment G: Supplementary Information.
- 25. Reporting Accidents** – An accident resulting in personal injury, death or property damage shall be reported to the Superintendent, as soon as possible. [36 CFR 2.33, 3.4, 4.4] All motor vehicle accidents resulting in injury, personal/government property damage, or injury to park wildlife or resources must be reported by dialing 911 [emergencies] or by calling park dispatch at (559) 565-3195 [non-emergencies]. Commercial operators must remain on scene where safe until park employees arrive and/or instruct commercial operators to leave.
- 26. Separated Passengers / Rescues** – All commercial operators are responsible for providing their clients with the necessary information to locate or contact their group if they become delayed or separated. Commercial operators may not abandon their clients in the park and are solely responsible for making arrangements for their clients to rejoin their group after being separated. Lost or missing clients must be reported to park dispatch as soon as possible and without unnecessary delay, at 559-565-3195. While self-rescue is encouraged in cases where no additional resources are needed, the National Park Service retains the authority to make the determination to employ additional resources when the situation warrants.
- 27. Food Storage** – The Holder is required to properly store all food items while operating in the park and must follow all park Food Storage Regulations: <https://www.nps.gov/seki/planyourvisit/bears.htm>. A list of allowed portable food storage containers is available at: http://www.nps.gov/seki/planyourvisit/bear_bc.htm.
- 28. Unattended Property** – Caching of food and gear in any location is not permitted.
- 29. Wildlife** – Wildlife should not be approached to within a distance that causes observable signs of stress, unless the approach is an effort to discourage animals from entering campsites. Signs of stress vary by species, but may include vocalizations, moving away, freezing in place, etc. A general guideline is to remain at least 100 yards from bear, deer, or bighorn sheep and 25 yards from other wildlife, including nesting birds.

- 30. Personal Consumption of Wild Edibles** – Gathering of fruits, nuts, berries, edible plants, or plant parts for personal consumption is permitted. Wild edibles or other plant matter may not be gathered for transport outside the park or for commercial purposes.
- 31. Cigarette Smoking** – Smoking on trails is highly discouraged. Smokers must use caution when smoking to prevent dropping ashes or embers that might ignite a wildfire. Cigarette butts are trash and must be packed out of the corridor/wilderness for proper disposal.
- 32. Human Waste/Waste Management** – Groups are required to abide by all park rules regarding proper disposal of human waste. Improper disposal of human waste is a violation of park regulations and violators are subject to fines. All trash must be packed out of the corridor/wilderness and disposed of in an appropriate waste container. In non-developed areas, human waste must be disposed of according to [Minimum Impact Restrictions](#) using [Leave No Trace Principles](#). Human waste must be buried at least 6" deep and 100 ft. from trails, camps, and all water sources. Pack out used toilet paper [do not burn]. All solid human waste generated by commercial group participants, guides, or affiliates, within 1/2 mile of the John Muir / Mount Whitney Trail, from 1/2 mile west of Guitar Lake to the summit of Mount Whitney, must be carried out of Sequoia and Kings Canyon National Park.
- 33. Health and Sanitation** – The Holder will comply with applicable public health and sanitation standards and codes. The Holder or its employees are not authorized to use the park's dump stations. The Holder is responsible for the removal of all trash associated with the Holder's visit to the park and is prohibited from depositing commercial waste into park trash containers. The Lead Guide will promptly report information about any human illness, whether employees or guests, to the park dispatch at (559) 565-3195.

SEQUOIA AND KINGS CANYON NATIONAL PARKS
WILDERNESS COMMERCIAL USE AUTHORIZATION
CONDITIONS OF SPECIFIED USES:

PACK AND SADDLE STOCK

1. **Guide Qualifications** – The following minimum qualifications must be met by each guide operating within Sequoia and Kings Canyon National Parks:
 - Guides/packers/wranglers must be at least 18 years of age and physically capable of hiking and/or packing in the high alpine or wilderness environment. All packers/wranglers must have previous demonstrated experience that includes packing and/or a level of technical experience appropriate to the objective of their trip and route.
 - Guides/packers/wranglers must be trained in basic safety and resource protection, “Leave No Trace” principles, park rules and regulations and in the requirements of the CUA conditions.
 - It is recommended that all guides/packers obtain Food Handling training and certification.
 - Guides/packers/wranglers must possess previous relevant outdoor experience and have traveled and/or camped in areas to be guided prior to guiding it.
 - All guides must possess a valid Basic First Aid Certificate plus adult CPR. Wilderness First Aid or Wilderness First Responder certification is recommended.
 - All certifications must be listed on the Guide Registration and Certifications Template or equivalent document. Certificates need not be submitted unless requested by NPS.
2. **Guide-to-client Ratios** – Maximum party sizes are as follows: Day ride (not including spot and dunnage trips) will have a maximum of 20 people and 20 stock with a combined maximum of 40. For on-trail overnight trips (including spot and dunnage trips that support overnight use for those trails where stock is allowed, except where area-specific exceptions apply) the maximum number of people is 15 while the maximum number of stock is 20 with a combined maximum of 28. For off-trail overnight trips (in areas specifically designated for off-trail stock use, except where area-specific exceptions apply) the maximum number of people is 12 while the maximum number of stock is 12 with a combined maximum of 14. If the holder has staff members participating in a training capacity, those staff members will not be counted in the staff/client ratio. See [Stock Users Guide](#) for more information.
3. **Area-Specific Party Size Restrictions** – Additional area-specific party size limits can be found on the [Stock Use & Grazing Restrictions Sequoia NP handout](#) and the [Stock Use & Grazing Restrictions Kings Canyon NP handout](#).
4. **Grazing Restrictions** – Grazing is permitted in accordance with the terms and conditions of the annual [Stock Use & Grazing Restrictions Sequoia NP handout](#), the [Stock Use & Grazing Restrictions Kings Canyon NP handout](#), the [Stock Users Guide](#), the [annual meadow opening dates announcement](#), and the annual Special Wilderness Public Use Limits & Closures handouts. Meadow closures are listed in the Stock Users Guide; temporary closures are listed in the annual Special Wilderness Public Use Limits & Closures handouts. These documents can be found at <https://www.nps.gov/seki/planyourvisit/stockuse.htm>. Holders must actively manage stock to avoid entry into closed areas. Area and Forage Area specific grazing restrictions are provided on each park's Stock Use and Grazing Regulations Map, updated annually to reflect current regulations and mailed to CUA permitted stock operators prior to each operating season. They can also be found at <https://www.nps.gov/seki/planyourvisit/grazing.htm>. It is recommended that Packers carry the map while conducting stock trips in the parks. The Holder is authorized the use of identified grazing areas for pack and saddle stock only when such use is incidental to the provisions of the service to the public as authorized by the CUA.

Temporary restrictions are reviewed and subject to change on an annual basis. Temporary restrictions in effect for the current year are listed in the annually published Special Wilderness Public Use Limits & Closures and the Superintendent's Compendium. Special Wilderness Public Use Limits & Closures can be found at <https://www.nps.gov/seki/planyourvisit/stockuse.htm>.

Information on length-of-stay limits can be found in the annual [Stock Users Guide](#). Meadow opening dates are established to protect meadows from stock impacts when they are wet and soft. Tentative opening dates can be found at: <https://www.nps.gov/seki/planyourvisit/grazing.htm>. Contact the Wilderness Office at (559) 565- 3766 if planning a trip on or near the opening date for a particular area as specific meadow opening dates may change due to actual field conditions. Holders must comply with all grazing start dates established by SEKI. Note that the opening dates only restrict grazing. Pack trips prior to opening dates are permitted as long as all feed is packed in and stock remain tied up at all times. When a meadow reaches allowable utilization levels, all users will be directed away from that meadow. The Holder is responsible for recognizing when allowable utilization levels are being exceeded and for avoiding areas as necessary to prevent utilization in excess of the allowable levels as listed in SEKI's Wilderness Stewardship Plan, Appendix D, Table D-5, found here: <https://www.nps.gov/seki/planyourvisit/wilderness.htm>. The Holder is expected to review the Stock User Guide's estimated

grazing capacities for all forage areas and plan trip grazing accordingly in order to avoid exceeding the capacity of a forage area solely by the Holder's own use.

Feed Restrictions – Feed carried into the wilderness must be commercially processed pellets, rolled grains, or fermented hay (e.g., ChaffhayTM). These products have a high level of mechanical milling, heat treatment, and/or anaerobic fermentation that result in much lower seed viability. Feed animals on a tarp or mantle and shake excess into the fire pit before leaving feeding site, do not shake excess on the ground or in a meadow. Baled or loose hay and compressed hay cubes are **not allowed** in wilderness. It is recommended that all stock animals be purged on pellets, rolled grains, fermented hay, or certified weed-free forage products 3 days prior to entering the parks. In the parks' front country zones, California, Nevada, or other state-certified weed-free forage is required when hay products are used as supplemental forage or bedding.

5. **Death of Stock** – If any stock dies while in the parks, operators must notify park dispatch at (559) 565-3195 as soon as possible. **Dead stock must be moved at least 300 feet from trails, campsites, and water within 72 hours.**

SEKI Stock Support Definitions:

Can include base camp, traveling, full Service, all inclusive, hiking with pack stock, continuous hire, or any other service where an employee is serving the client for the entire trip.

Re-supply services may not start on the same day as the trip that is being serviced. Re-supply packer and stock may not subsequently travel with the party that has received the re-supply.
- **Spot Trip:** Customer is taken by horseback to a designated location with provisions for a specified time. The packer and stock may return at a specified time to pick up the customer, if the trip is for two ways. Customer furnishes all provisions and equipment but rides in.
- **Traveling Trip:** Livestock and crew remain with customer from start to stop. Two types of traveling trips are available. In the all expense travel trip the packer provides everything whereas in others the customer can provide his or her own gear, food, etc.

- 3. Fishing Regulations** – Refer to California State fishing regulations for the Sierra District for current limitations and open seasons as well as special state regulations. [State fishing regulations](#) apply to all areas in Sequoia and Kings Canyon National Parks, with the following exceptions: All live, dead, and scented bait is prohibited. Only artificial flies or lures are authorized. In waters below 9,000 feet elevation that are not located in developed areas, barb-less hooks are required. Rainbow trout, Sacramento sucker, sculpin, California roach and Kern rainbow must be released. Developed areas are defined as areas within one-quarter (0.25) of a mile of buildings, campgrounds, picnic areas or parking lots that accommodate more than five (5) vehicles.

Fishing in any manner other than by hook and line, with a rod or line being closely attended in such manner that the fish voluntarily takes the bait or lure in its mouth is prohibited. Each angler is limited to only one rod; fishing in any other manner is prohibited. Only lead-free artificial lures or flies may be used. Leaded split-shot sinkers, weighted jigs (lead molded to a hook), and soft lead-weighted ribbon for nymph fishing are not allowed. - 4. Area Restrictions** – The Soda Springs Creek drainage (in southern Sequoia National Park) is closed to all fishing to protect native species. Fishing from any bridges used by vehicles is prohibited. The use of flotation devices, boats, or rafts is prohibited. Areas used for fishing must remain essentially in the same condition as prior to its use by the holder. Logs and/or rocks may not be moved. Tree limbs and/or bushes may not be cut down or broken off to improve fishing experience. Riparian areas have a high potential for resource impact; use sensitivity and care when traveling those areas.
- 5. Disposal of Fish Entrails** –Fish entrails must be disposed of by puncturing the air bladder and depositing the entrails in deep water of the lake or stream from which they were taken, at a distance of 200 feet or more from any campsite. Food Storage regulations must be followed at all times.
- 6. Decontamination of Equipment** –Before entering the parks, the holder must ensure equipment to be used in the authorized activity (rod, reel, wading boots, gear, etc.) has been inspected and cleaned of all visible debris, and boots and waders have been decontaminated to kill invisible or hard-to-see plants, animals and microbes. These practices will help protect park waterways and native species by preventing the spread of harmful exotic species. A suggested decontamination protocol is provided: <http://www.fs.fed.us/invasivespecies/prevention/playingSMART.shtml>.

Such insurance should be of sufficient scope to cover all potential risks and in an amount to cover claims that can reasonably be expected in the event of serious injury or death. The minimum commercial general liability insurance is shown in the table below. Liability insurance policies must name the United States of America as additional insured. The business or person that is providing the service must be the named insured (policy holder). Companies that provide transportation only are not required to have Commercial General Liability as long as the passengers do not disembark. Insurance Company Minimum Standards

The NPS has established the following minimum insurance **company** requirements. All insurance companies must meet the following minimum standards. These standards apply to foreign insurance companies as well as domestic companies.

1. All insurers for all coverages must be rated no lower than A- by the most recent edition of Best’s Key Rating Guide (Property-Casualty edition), or similar insurance rating companies (Moody’s, Standard and Poor’s, or Fitch), unless otherwise authorized by the Service.
2. All insurers for all coverages must have Best’s Financial Size Category of at least VII according to the most recent edition of Best’s Key Rating Guide (Property-Casualty edition), or similar insurance rating companies (Moody’s, Standard and Poor’s, or Fitch), unless otherwise authorized by the Service
3. The insurance ratings must be submitted with the CUA Application. The rating companies do not issue certificates. We require the insurance broker to note this rating in the Certificate. If the rating does not appear on the certificate, the insurance broker must provide it in another document.

Proof of Insurance Submission

Applicants must submit proof of insurance with the CUA Application. The proof of insurance must:

- Be written in English with monetary amounts reflected in USD
- Reflect that insurance coverage is effective at time of CUA Application submission
- Name as insured the business or person that is providing the service
- Name the United States as additional insured
- Reflect a General Commercial Liability Policy with the minimum coverage amount required in the CUA Application
- Reflect required additional insurances (commercial vehicle, vessel, aircraft, etc.) with the minimum coverage amount required in the CUA Application
- Include insurance provider rating or provide in separate document
- The Certificate Holder’s address as additional insured should read:

United States of America, National Park Service, 47050 Generals Highway, Three Rivers, CA 93271

Visitor Use Acknowledgement of Risk**

CUA Holders cannot require visitors to sign a waiver of liability statement, insurance disclaimer, or indemnification agreement. If you provide high-risk services, you may advise visitors of risks associated with the activity through the use of a visitor acknowledgement of risk form (VAR). Additional information on NPS CUA use of a visitor acknowledgement of risk form can be obtained at: <https://www.nps.gov/subjects/cua/cua-insurance.htm>.

Example Visitor Acknowledgment of Risk

In consideration of the services of _____ their officers, agents, employees, and stockholders, and all other persons or entities associated with those businesses (hereafter collectively referred to as "_____") I agree as follows:

Although _____ has taken reasonable steps to provide me with appropriate equipment and skilled guides so I can enjoy an activity for which I may not be skilled, _____ has informed me this activity is not without risk. Certain risks are inherent in each activity and cannot be eliminated without destroying the unique character of the activity. These inherent risks are some of the same elements that contribute to the unique character of this activity and can be the cause of loss or damage to my equipment, or accidental injury, illness, or in extreme cases, permanent trauma or death. _____ does not want to frighten me or reduce my enthusiasm for this activity, but believes it is important for me to know in advance what to expect and to be informed of the inherent risks. The following describes some, but not all, of those risks.

[\[enter description of risks\]](#)

I am aware that _____ entails risks of injury or death to any participant. I understand the description of these inherent risks is not complete and that other unknown or unanticipated inherent risks may result in injury or death. I agree to assume and accept full responsibility for the inherent risks identified herein and those inherent risks not specifically identified. My participation in this activity is purely voluntary; no one is forcing me to participate, and I elect to participate in spite of and with full knowledge of the inherent risks.

I acknowledge that engaging in this activity may require a degree of skill and knowledge different from other activities and that I have responsibilities as a participant. I acknowledge that the staff of _____ has been available to more fully explain to me the nature and physical demands of this activity and the inherent risks, hazards, and dangers associated with this activity.

I certify that I am fully capable of participating in this activity. Therefore, I assume and accept full responsibility for myself, including all minor children in my care, custody, and control, for bodily injury, death, or loss of personal property and expenses as a result of those inherent risks and dangers identified herein and those inherent risks and dangers not specifically identified, and as a result of my negligence in participating in this activity.

I have carefully read, clearly understood, and accepted the terms and conditions stated herein and acknowledge that this agreement shall be effective and binding upon me, my heirs, assigns, personal representative, and estate and for all members of my family, including minor children.

INSTRUCTIONS

Monthly Trip Reports are due monthly on the 15th of each month for the preceding month. Fill in the form through the fillable Word format and email reports to the Commercial Services Office at seki_cua@nps.gov. If no trips occurred in the parks for the month, fill in the first page of the report completely and make sure to enter "0" in section 3 for the number of clients served and number of trips made to the park over the past month. If a trip occurred for the month, fill out the Monthly Trip Report Summary form completely, following the instructions below.

1. **Commercial Use Authorization (CUA) Permit Number:** Enter the CUA permit number
2. Report if you plan to conduct any additional trips within the remainder of the permit term.
3. Record the type of animals providing stock or saddle support (Horse/ Mule, Burro, or Llama).
4. **Date:** Record each day where use occurred in the park. **Use a separate line for each day of a trip.** If the trip is a stock dunnage trip, input the date the resupply entered the park. Review example reporting form for helpful tips on reporting.
5. **Trip Identifier:** Name each trip, using client name or another unique identifier.
6. **Wilderness Permit Number:** Provide the number of the wilderness permit obtained by hiring party or clients. Record N/A if the trip was a day trip for which a wilderness permit was not required.

Calculate the CSDs for each day regardless of whether multiple days make up a single trip. This category excludes MWMA CSDs (see below)
11. **Number of Mt. Whitney Management Area Commercial Service Days (MWMA CSDs):** If any portion of the day was spent in the MWMA, it should be counted. NOTE: A list of common camping and grazing areas within the MWMA can be found on page 7 of the Parks' Stock Users Guide. Alternatively, the MWMA is shaded in blue on the Wilderness Travel Zones map.
12. **Forage Area Number/Wilderness Travel Zones:** If the destination of the stock is a named forage area, record its number. The grazing maps and stock user's guide describe the locations of these named forage areas. Forage area numbers can also be found on pages 12-35 of the Stock Users Guide. If the destination was not a named forage area, enter the Wilderness Travel Zone. A Wilderness Travel Zones map has been provided in this report. If the destination was not in the wilderness enter "N/A".
