Subject: [EXTERNAL] public comment on federal register

i think the people who live on nantucket are rich enough to save their own land. don't believe this is required of american taxpayers. jean public jeanpublic1@yahoo.com

Subject: [EXTERNAL] Request to attend Public Comment Meeting ACK Coskata

Good morning from Nantucket,  
I would like to attend the on-line public comment meeting to be held on December 10th, 2024 in hopes of supporting the effort to name Coskata as a National Natural Landmark by the National Park Service. As a retired teacher, nature lover, grandmother, avid walker, and a 45 year-round resident I wish to support this effort. One of my most treasured memories is of the time I was on Coskata and amongst all the birds and beauty I happened to come across a small cactus in bloom. I was not expecting to see such a thing on Nantucket. The whole island is a treasure and Coskata stands out as truly the most magical place.

Janie Hobson-Dupont
