

# Constructing a VIP Protection Plan

Presented by the United States Secret Service

Location	Zion National Park Canyon Community Center Springdale, Utah Lodging options: <a href="http://www.zionpark.com/Hotels.htm">http://www.zionpark.com/Hotels.htm</a>
Dates	Tuesday-Thursday, July 29-31, 0900-1700 daily
Target audience	Commissioned rangers or non-commissioned overhead responsible for planning events involving individuals who require protection
More information	Contact Kevin Killian by email or 435-772-7825

This training program was developed jointly by the USSS and NPS to meet the needs of NPS Rangers or members of overhead teams who will be tasked with constructing plans for events which will be attended by individuals who require protective details. Additionally, constructing plans for events where USSS protective details will be involved adds a level of complexity to the planning process that this program intends to minimize.

The draft syllabus includes:

- Goals of the protective mission
- Advance team procedures
- Motorized and non-motorized movements
- Terrorist trends and tactics
- Counter surveillance threat assessment

Send nominations to Kevin Killian ([kevin\\_killian@nps.gov](mailto:kevin_killian@nps.gov)) which state where you work and (briefly) how this training would benefit you and the agency.

Class size is limited to 24. There is no tuition; all expenses are the responsibility of the benefitting account.
